Is this the Auroville of tomorrow?

PONDERING

Earth needs

a place where men can live away from all national rivalries, social conventions, self-contradictory moralities and contending religions;

a place where human beings, freed from all slavery to the past, can devote themselves wholly to the discovery and practice of the Divine Consciousness that is seeking to manifest.

Auroville wants to be this place and offers itself to all who aspire to live the Truth of tomorrow.

HOUSE OF MOTHER'S AGENDA

THE FUNDAMENTAL AGNI

At the outset of the second phase, a little before his retirement, we find a rather strange conversation that Sri Aurobindo had in 1926 with a French physicist. These few words of Sri Aurobindo's, which must then have seemed rather enigmatic, show the particular orientation of his experiences:

There are two statements of modern science that would stir up deeper ranges in an occultist:

1. *Atoms are whirling systems like the solar system.*
2. *The atoms of all the elements are made out of the same constituents. A different arrangement is the only cause of different properties.*

If these statements were considered under their true aspect, they could lead science to new discoveries of which it has no idea at present and in comparison with which the present knowledge is poor.

Let us remember that the year was then 1926.

Sri Aurobindo continued: *According to the experience of ancient Yogis... Agni is threefold:*

1. *ordinary fire, jada Agni*
2. *electric fire, vaidyuta Agni*
3. *solar fire, saura Agni*

Science has only entered upon the first and second of these fires. The fact that the atom is like the solar system could lead it to the knowledge of the third.

What was Sri Aurobindo driving at? And how is it that he – not to mention the rishis of six thousand years ago – knew before all our scientific laboratories that solar heat, *Saura Agni*, has a different origin from what we usually call fire or electricity, that it is produced by nuclear fusion and that it is the very same energy found in the atom's core? It is a fact – perhaps disconcerting for science, which needs to deal with "concrete realities" – that every physical reality is lined with an inner reality which is both its cause and its foundation; even the most infinitesimal material elements have their inner counterparts, and foremost among them are our own physical organs, which are only the material linings or supports of the centers of consciousness. Everything here is the symbolic translation or shadow thrown by a light or a force that is behind, on another plane. This whole world is but a vast Symbol. Science observes and analyzes phenomena, devises equations for gravitation, weight, atomic fission, etc., but it only touches the effects, never the true cause. The yogi sees the cause before the effect. A scientist can deduce a certain cause from the effects produced, whereas a yogi deduces the effects from the cause; he can even deduce effects that do not yet exist from a cause that already exists (e.g., the accident will happen tomorrow from the force of the accident that is already there in the background). The scientist manipulates effects, at times bringing about catastrophes; the yogi sees the cause, or, rather, identifies with the Cause, and thereby he can alter the effects, or as Sri Aurobindo puts it, the "habits" we call laws. Ultimately, all our physical effects, which we have codified into laws, are nothing more than a convenient *support* for the manifestation of forces that are behind, exactly as a performance of magic requires certain ritualistic diagrams, certain ingredients or formulas, so that the forces invoked can manifest themselves.

This whole world is a gigantic magical performance, a constant act of magic. But the earthly diagram, all the ingredients we have so earnestly and unchangeably codified, all our infallible formulas, are merely conventions. The earthly ritual can change if, instead of remaining mesmerized by the effects, we go back to the cause behind them – on the side of the Magician. There is a tale about a Hindu Brahmin who, every day at the hour of his worship, had the family cat tied up so that he would not be disturbed in his ritual. Eventually, both the Brahmin and the cat died, and the Brahmin's son, now in charge of the worship ceremony, procured a new cat, which he then conscientiously tied up during the sacrifice! From father to son, the cat had become an indispensable element in the effective performance of the ritual. Our own unassailable laws, too, may contain a few little cats. If we go back to the original force concealed behind the physical support, to the "true movement," as the Mother describes it, then we begin to witness the Great Play, and to realize just how different it is from the rigid notions we have of it. Behind the phenomenon of gravitation, to take one of the rituals, there is what the ancient yogis called Vayu, which causes gravitation and the electromagnetic fields (as Sri Aurobindo mentioned also during that conversation of 1926), and this is how a yogi can eventually defy gravity. Behind the solar or nuclear fire there is the fundamental Agni, "the child of the waters, the child of the forests, the child of things stable and the child of things that move. Even in the stone he is there," says the Rig Veda. (I.70.2) This is the "warm gold dust" the Mother speaks of, the real cause behind the effect, the original force behind the material, atomic support; "other flames are only branches of thy stock." (I.59) It is because Sri Aurobindo and the rishis saw this spiritual *Agni* in Matter, this "sun in the darkness," that they were able to know of its material, atomic effects, and hence of nuclear fusion, long before our own scientific experiments revealed this phenomenon. This is also why, since they knew the cause, they dared to speak of transformation.

NOTE FROM THE EDITORS

Dear Community,

We thank everyone for embracing the new RA N&N and sending in your submissions.

We have been facing various issues with the FO N&N (*delaying their publications; locking PDFs; repeated or obsolete content; content published without author's consent; unclear sourcing of content; etc...*). Consequently, we have decided that from 20th July onwards, we will only publish content sent directly to us at newsandnotes@auroville.services.

Important:

From next week onwards, the only content that we will continue publishing from the FO N&N are announcements from the FO and their working groups, in order to honour our commitment to have all voices heard. FO Working Groups are of course invited to send their content directly to the RA N&N for publishing, if they wish for their links to be functional and if they would like to avoid any delays in publishing. All events, workshops, and other content not sent to us directly, will no longer be added to the RA N&N, for the above stated reasons.

Reminder:

Please do NOT write to us from an @auroville.org.in mail ID, your submissions will not reach us. If you only have an auroville.org.in mail ID, please use this [form](#) to send us your content.

Support the RA N&N:

As the News and Notes budget is still being disbursed only to the FO N&N, printing and distribution costs are currently being covered by private donations. If you wish to contribute to the RA Edition of the N&N, you can do so by donating to: "NEWSLETTER COLLECTION" FS #252150.

We look forward to continuing to serve the over 3000 readers who receive the RA Edition as well as serving the Auroville community as a whole by providing a platform for all perspectives to be shared with respect.

OPEN LETTER TO AUROVILLE LAND BOARDAuroville, 8th July 2023
TDC 23.041Subject: Serious violation of the NGT judgement - tree cutting

Dear Land Board members, Mrs. Meenakshi, Special Officer, Mr.Ponnambalam, Special Officer, Mr. Rajavelu, Mr.Raja, Mr. Satyakam, Mr.Venkat

We understand that the Auroville Land Board received an intimation from the office of the Secretary of the Auroville Foundation to let the trees be cut on a stretch of land stewarded by Mr. A. Vohra.

It is neither in your nor in the purview of the Secretary of the Auroville Foundation office or Mr. A Vohra to permit the cutting of trees prior to the evaluation and submission of the Report for the entire Crown by the Hon'ble Joint Committee.

In an NGT hearing on 14th March 2023 (see court order attached), hon'ble Mr. Vaibhav R Venkatesh stated - on behalf of the Secretary of the Auroville Foundation Office - that no cutting of trees will be undertaken beyond the recommendation given by the Joint Committee, meaning the Darkali stretch.

It is with great disappointment that we have witnessed the Auroville Land Board being engaged in the cutting of trees near the Gaia crossing as well as the fact that you are acting against the decision of the Residents' Assembly taken in the January 2022 RAD.

It is very unfortunate that the Land Board chooses to willfully ignore both the judgement of the Hon'ble NGT dt 28th April 2022 as well as an RA Decision. Please be aware of the legal implications of your actions. Any cutting of trees is a direct violation of the court judgement and is not to be taken lightly

As we have explained to you verbally several times, unless you have written and signed documentation intimating you to proceed with or be party to the cutting of trees on any part of the proposed Crown trajectory - outside of the Darkali park stretch - or anywhere inside the Auroville project / Master plan area on lands that have not been developed may make you personally liable for the actions taken. This includes the clearing of shrubs and understory as well as young trees, as is being undertaken by Mr. A. Grandcolas on lands that should be stewarded by the Auroville Land Board between Town Hall and Martimandir.

COMMUNITY SHARING

OPEN LETTER FROM THE AUROVILLE FARM GROUP

Dear Torkil and Chandresh, members of AFO FAMC

The Farm Group does not agree with your analysis of the farming situation in Auroville or your so-called solution. Our thoughts are as follows:

- You say that since farmers only produce 20% overall of what Auroville needs, this is because of subsidies given to the farmers rather than structural issues relating to the Auroville market. As we have explained to you, a large part of the reason for this deficit is because the Auroville market demands food that it is impossible to grow in this area. Farmers cannot do much about that and a better approach would be to try and change the habits and attitudes of Auroville consumers towards the food that can be grown in this climate and with the present natural resources. Auroville farmers can and will produce more of these items provided they could be sure that most of what they grew would be sold.

- You say that FAMC have tried to engage farmers but that they have been resistant to this. We have met just two or three times with the AFO FAMC and twice with the farm service. In the last meeting with FAMC, Gheeta, Torkil and Chandresh, we all agreed in principle to look at ways both groups could move forward together; focusing on the things with which we can agree. Two days after, the Farm Service was created and at our first meeting with them, Prasad informed us that they, not FAMC, would only be dealing with us. Now, last week an email reducing farmers' maintenances. You say that the Farm Service is moving ahead with dealing with surpluses through restructuring Foodlink. Just to let you know that farmers are still getting produce returned and being told not to bring in certain items because Foodlink cannot deal with them. In other words, the new Farm Service Foodlink are having the same problem as before, in fact possibly more.

- If you want to go ahead with making farmers support themselves please be aware that you are encouraging farmers to grow what makes the most profit which is not necessarily what Auroville needs. Do you think this is a good move? It is also unclear about expectations with regard to the standard of Auroville produce. The existing high standards ensure that Auroville food is grown in a way that is healthy for people as well as the Earth. Do you subscribe to those values? Or is the value to be measured only in profit and production? At present it sounds very much like the latter and Auroville farmers do not agree with this. You talk about new ways of farming; can you please explain? If you mean the Gratitude project or Unity farm, we do not see any much new happening there.. You talk about the new farms which are having no subsidies and so we should all have no support; are you talking about Unity farm which got a budget of over 7 lakhs to start up or Gratitude project with double that investment? If farms would get all such startup investment the situation might look quite different now.

- Growing more food also requires investment so where is that supposed to come from? Many farms do not have resources for new investment to grow more and for those that do it will take time to make the necessary changes to increase production. You say that the new initiatives of which you talk have/will be carried out without subsidy and presumably investment. Please do explain this further. How will these new projects be set up with no financial backing and how are the people doing the work managing with no financial support? (using savings? Getting jobs outside Auroville?) Please clearly explain this to us.

Farmers have shown lots of goodwill to try to cooperate with you although your group has been imposed on Auroville without any proper process.

Now getting these decisions thrown at us;

First our common farm group accounts are frozen. These accounts are vital for farmers to be able to take emergency loans, seed/compost loans, infra loans, it also blocks the repayment of several lakhs of rupees to farms from a fund which farmers have pooled to pay operating cost of foodlink and any excess gets paid back at the end of the financial year.

Then Farm group and it's subgroups are being dismissed as non existent; these groups are simple working groups where farmers meet, look at each others work, plan crops and are crucial for learning and regulation of production.

Foodlink being taken over without any respect for its executives and no time for a proper transition and finally cutting of the personal maintenance from farmers, again from one moment to the other without any proper prior communication is totally unacceptable.

We really start to wonder about your motives and capacity; anyone with a little sense of reality will realize that all these measures are surely not going to help to increase food for Aurovilians.

We will continue to work on the land because that is what farming is about. We will find ways to survive and keep supporting Aurovilians because that's what is needed. Unless you stop making these unilateral decisions and there is normal communication it will be difficult to work with you any longer.

Wishing for better times,
Auroville Farm group

**THE ABOVE MESSAGE WAS A RESPONSE TO THE AFO
FAMC E-MAIL BELOW:**

Dear Auroville farmers,

Despite many years of work, large areas given for farming, large subsidies in form of maintenance, donations and loans, the farms of Auroville have only managed to produce around 20% of the food Auroville needs.

Over the last year FAMC have tried to engage farmers in discussions about how this can be radically changed, but there has been little interest to move away from the safety and protection of subsidies. Auroville is now expecting a fast growth in population and the existing farm production system will not in any way be able to be scaled up. The new Farm Service is moving fast ahead with new ways of farming, opening Food Link for selling surplus outside, and is working without expectation of subsidy or maintenance, but based on sale of production.

It would not be possible to run two different production systems at the same time, one heavily subsidised and one without. FAMC has decided that with effect from June 2023 we will move into a new setup to support a fair maintenance scheme of a "care package" for running farms in Auroville, and farms have to rely additionally on what they produce and sell.

A "care package" provided by BCC covers the monthly support of the lunch scheme, in-kind support for groceries and the health fund contribution. The City Services Contribution will also be provided with a waiver. We know it is a difficult transition for the farm sector, and we realise that some farmers will have trouble taking these steps.

In case anybody has serious financial problems with this, they can approach City Services for temporary support.

In Her Service,
Auroville will boldly spring towards future realisations,
Chandresh and Torkil for FAMC

SUMMARY NOTES OF A CORE GROUP MEETING IN BUDDHA GARDEN 04/07/2023

- 1. FARM MAINTENANCES;** the recent reduction in maintenances for farmers was discussed, especially the inability of some farmers to pay outstanding loans which cannot necessarily be met from farm income. A way has to be found to ease stress on these individuals maybe by freezing the loans for the time being.
- 2. COMMUNICATION TO THE AFO FAMC;** draft of an email to the AFO FAMC was discussed and it was decided to add details of the frozen Farm Group accounts. These include 7 funds totalling approximately Rs50laks. The AFO FAMC will be questioned as to why is this money is frozen when it is much needed by farmers. After circulation this email was sent on July 8th.
- 3. FARM GROUP MEETING;** in the light of recent actions taken by the AFO the Core Group is sending an email to all farmers inviting them to meet on July 11th. A range of subjects will discussed relating to the maintenance situation and other issues. As well as exploring various ways to support farmers through the present challenging situation.
- 4. ADMINISTRATION AND COMMUNICATION;** various administrative tasks will be carried out to make this process more efficient for the group. A summary of meeting notes will be sent bi-weekly to the News and Notes.

SUMMARY NOTES OF A CORE GROUP MEETING IN BUDDHA GARDEN 27/07/2023

- 1. FOODLINK;** according to the Service Trust the Farm Service does not have the power to dismiss Foodlink executives as they did with Sumathi and Angurajan. Only the trustees of the Service Trust can do this. It appears that Farm Service are not practically addressing the problems of the AV Food Ssystem distribution as farms continue to be burdened by the situation of Foodlink not taking all the farms' produce. More administrative support is needed to better distribute/market excess Auroville produce so that this job does not fall on farmers.
- 2. MEETING WITH SECRETARY, FO FAMC, FS ON JUNE 23RD;** there were wide ranging discussions about the role of the Farm Service, the amount of land used for production, the challenges of creating optimum farm productivity and the price of Auroville food. In the light of subsequent actions which include minimising farmers' maintenances and branding the Farm Group as illegal the possibilities of positive collaboration seem much reduced. Especially as although the Farm Service say they want to create a 'prosperity system' the basic problems of the Auroville Food system distribution are not being practically addressed.
- 3. DISMISSAL OF FARM GROUP/CORE GROUP/SUB GROUPS;** the Core Group and Sub Groups of the Farm Group have been branded as illegal by the Farm Service/Foundation office. Legal advice is being sought to share with farmers to decide how best to proceed and communicate about this situation.
- 4. VEGETABLE PRODUCTION;** Anshul's Vegetable project attempting to gather data on how much produce is grown as the basis for future vegetable growing planning. Confirmation is needed if the Aruvadai (Harvest) project presented to the PCG will meet this need. To be discussed at the next Veg Sub Group meeting at the end of the week.

5. COMMUNICATION WITH GROUPS; it was agreed to send emails as follows:

- Priya will draft an email to all the relevant FO groups about the end of farmers maintenances and how it was implemented. This will be sent after feedback from the FCG and farmers.
- Tomas will draft an e-mail to the Farm Group letting them know that there is no immediate solution to the maintenance situation and the problems this creates for farmers. Farmers will be asked for ideas which can be discussed at a larger meeting.
- An open letter to the FOFAMC and Farm Service (cc'd to Secretary and News and Notes) will be drafted to explain how despite Foodlink being under new management farms are still burdened by the present situation of Foodlink not taking all the produce that farms grow.

6. GENERAL COMMUNICATION

- Farmers will be updated about the farms situation through a new WhatsApp group.
- To keep the community informed about what is going on the Auroville farm sector with regular reports from the Farm Group.
- More admin support is needed to take notes at the meetings and keep email communication updated.
- To make communication between farmers more secure farmers will be asked to create a non Auroville.org.in so farmers can be sure that their communications between each other are private.

MULTIDISCIPLINARY POOL AUROVILLE

Dear Community,

The Multidisciplinary Forum (MDF) invites people from different fields of knowledge and expertise with the aim to gather and reflect on a given topic while using different tools.

The MDF has recently completed the exploration of another topic of interest for the Community, which was: "How do we improve the flow, from ideas to implementation?"

This last session welcomed 22 experts from: Farming, Organisation & Researches, Engineering, Law Practice, Art, Medical & Therapy, Sports, Architecture & Planning, Forest, Media, Education and Outreach.

These dedicated persons met 7 times within 4 months and came up with a common understanding and outcome regarding the topic.

Please find the link to the report of the session here below.

All are Welcome

LIFE DIVINE EXCERPT, BY SOHAM

"All life for the achieved spiritual or gnostic consciousness must be the manifestation of the realised truth of spirit; only what can transform itself and find its own spiritual self in that greater Truth and fuse itself into its harmony can be accorded a life-acceptance. What will so survive the mind cannot determine, for the supramental gnosis will itself bring down its own truth and that truth will take up whatever of itself has been put forth in our ideals and realisations of mind and life and body. The forms it has taken there may not survive, for they are not likely to be suitable without change or replacement in the new existence; but what is real and abiding in them or even in their forms will undergo the transformation necessary for survival. Much that is normal to human life would disappear. In the light of gnosis the many mental idols, constructed principles and systems, conflicting ideals which man has created in all domains of his mind and life, could command no acceptance or reverence; only the truth, if any, which these specious images conceal, could have a chance of entry as elements of a harmony founded on a much wider basis. It is evident that in a life governed by the gnostic consciousness war with its spirit of antagonism and enmity, its brutality, destruction and ignorant violence, political strife with its perpetual conflict, frequent oppression, dishonesties, turpitudes, selfish interests, its ignorance, ineptitude and muddle could have no ground for existence. The arts and the crafts would exist, not for any inferior mental or vital amusement, entertainment of leisure and relieving excitement or pleasure, but as expressions and means of the truth of the spirit and the beauty and delight of existence. Life and the body would be no longer tyrannous masters demanding nine tenths of existence for their satisfaction, but means and powers for the expression of the spirit. At the same time, since matter and the body are accepted, the control and the right use of physical things would be a part of the realised life of the spirit in the manifestation in earth-nature."

(The Divine Life, p.1102-3)

Soham's comment:

The realisation of the new Truth-love consciousness means the total elimination in ourself of all the psychological rubbishes forcefully imposed on us by the profit, ego oriented conditioning and absurd destructive, self-torturing environment, mentally, tormented by its mad obsessions to possess, to abuse, to dominate whatever it can grab, crush consume, smash to powder (of gold if possible). Help! Lovely Lord of my heart, normal people are all cracked!

A POTENTIALITY OF THE DIVINE

In this multidimensional existence of limitless possibilities, probabilities and potentialities:

There is something here in this world, in the last result, which justifies the labour:

A Potentiality of the Divine

"If we regard the gradation of worlds or planes as a whole, we see them as a great connected complex movement; the higher precipitate their influences on the lower, the lower react to the higher and develop or manifest in themselves within their own formula something that corresponds to the superior power and its action. The material world has evolved life in obedience to a pressure from the vital plane, mind in obedience to a pressure from the mental plane. It is now trying to evolve supermind in obedience to a pressure from the supramental plane. In more detail, particular forces, movements, powers, beings of a higher world can throw themselves on the lower to establish appropriate and corresponding forms which will connect them with the material domain and, as it were, reproduce or project their action here. And each thing created here has, supporting it, subtler envelopes or forms of itself which make it subsist and connect it with forces acting from above.

Man, for instance, has, besides his gross physical body, subtler sheaths or bodies by which he lives behind the veil in direct connection with supraphysical planes of consciousness and can be influenced by their powers, movements and beings. What takes place in life has always behind it pre-existent movements and forms in the occult vital planes; what takes place in mind presupposes pre-existent movements and forms in the occult mental planes. That is an aspect of things which becomes more and more evident, insistent and important, the more we progress in a dynamic yoga.

But all this must not be taken in too rigid and mechanical a sense. It is an immense plastic movement full of the play of possibilities and must be seized by a flexible and subtle tact or sense in the seeing consciousness. It cannot be reduced to a too rigorous logical or mathematical formula. Two or three points must be pressed in order that this plasticity may not be lost to our view.

First, each plane, in spite of its connection with others above and below it, is yet a world in itself, with its own movements, forces, beings, types, forms existing as if for its and their own sake, under its own laws, for its own manifestation without apparent regard for the other members of the great series. Thus, if we regard the vital or the subtle physical plane, we see great ranges of it, (most of it), existing in themselves, without any relation with the material world and with no movement to affect or influence it, still less to precipitate a corresponding manifestation in the physical formula. At most we can say that the existence of anything in the vital, subtle physical or any other plane creates a possibility for a corresponding movement of manifestation in the physical world. But something more is needed to turn that static or latent possibility into a dynamic potentiality or an actual urge towards a material creation. That something may be a call from the material plane, e.g., some force or someone on the physical existence entering into touch with a supraphysical power or world or part of it and moved to bring it down into the earth-life. Or it may be an impulse in the vital or other plane itself, e.g., a vital being moved to extend his action towards the earth and establish there a kingdom for himself or the play of the forces for which he stands in his own domain. Or it may be a pressure from above; let us say, some supramental or mental power precipitating its formation from above and developing forms and movements on the vital level as a means of transit to its self-creation in the material world. Or it may be all these things acting together, in which case there is the greatest possibility of an effective creation.

Next, as a consequence, it follows that only a limited part of the action of the vital or other higher plane is concerned with the earth-existence. But even this creates a mass of possibilities which is far greater than the earth can at one time manifest or contain in its own less plastic formulas. All these possibilities do not realise themselves; some fail altogether and leave at the most an idea that comes to nothing; some try seriously and are repelled and defeated and, even if in action for a time, come to nothing. Others effectuate a half manifestation, and this is the most usual result, the more so as these vital or other supraphysical forces come into conflict and have not only to overcome the resistance of the physical consciousness and of matter, but their own internecine resistance to each other. A certain number succeed in precipitating their results in a more complete and successful creation, so that if you compare this creation with its original in the higher plane, there is something like a close resemblance or even an apparently exact reproduction or translation from the supraphysical to the physical formula. And yet even there the exactness is only apparent; the very fact of translation into another substance and another rhythm of manifestation makes a difference. It is something new that has manifested and it is that that makes the creation worth while. What for instance would be the utility of a supramental creation on earth if it were just the same thing as a supramental creation on the supramental plane? It is that, in principle, but yet something else, a triumphant new self-discovery of the Divine in conditions that are not elsewhere.

No doubt, the subtle physical is closest to the physical, and most like it. But yet the conditions are different and the thing too different. For instance, the subtle physical has a freedom, plasticity, intensity, power, colour, wide and manifold play (there are thousands of things there that are not here) of which, as yet, we have no possibility on earth. And yet there is something here, a potentiality of the Divine which the other, in spite of its greater liberties has not, something which makes creation more difficult, but in the last result justifies the labour."

FOOD FOR THOUGHT: EATING OUR WAY TO EXTINCTION

Eating Our Way To Extinction is a powerful documentary that invites you on an eye-opening journey into our food system and the negative impact it is having on our planet – and on our future as a species and civilisation.

<https://www.youtube.com/watch?v=LaPge01NQTQ>

HERO WARRIORS

"Make of us the hero warriors we aspire to become. May we fight successfully the great battle of the future that is to be born, against the past that seeks to endure; so that the new things may manifest and we may be ready to receive them." ¹

1964: my year of mortal birth on this planet Earth...
Quite a roller-coaster experience, having again the chance
To transcend the cultural and genetic programmings
Of my soul-chosen earthly parents...
An ongoing most interesting evolutionary process.
Anyway, back to The Play...
It is against the whole universal Nature, this revolt. ²
So it is a most intense and formidable fight,
Sentinels of the old world hanging on tight, ³
Prowling hungry wolves baring large teeth.
But be more wary of those dressed in sheep,
Enticing with fool's gold, fine food, sex and wine
Till sun-born Circe turns you to a monster or swine,
Your precious life force drained by vital vampires
Until your poor physical body simply expires.
What a waste of another reincarnated existence,
Maybe next life a chance for a change of consciousness.
So yes Hero Warriors are indeed needed
In this pre-Golden Age to forge ahead.
As Kali Yuga is peaking my dear Hero friend
The challenges are intensified and hastened;
The asuric and rakshasic overlords of Mind
With their hordes will not just give up without a grind.
Best to battle it out with proven Divine Allies,
Like Avatar Krishna siding with Arjuna of the Pandavas.
This time the Avatar Sri Aurobindo and the Mother
Came to kickstart and herald the Satya Yuga Chapter,
Even creating a huge playing field to hasten
The evolution, this Auroville the City of Dawn,
With the consenting Mothers Bharat and Bhumi
Backing up the push for a terrestrial newbie
That will replace the governance of the transitional species
Born from the Ignorance too mortal Homo sapiens
With the physically upgraded immortal Supramental being:
The Divine Manifestation, Master of Matter,
Swift Golden Child of the Supreme Divine Mother,
Whom will govern the cosmos with Divine Love and Bliss.
On this marvellous but abused and raped of an Earth soon
A Life Divine.

HEALTH CARE

AYURVEDA TIPS FOR RAINY SUMMER

During the summer, body struggles to keep its inner temperature to a cool 35-36°C when outside temperature can rise well above. Now that the peak heat of the summer is over, thanks to the summer rain that cools down the atmosphere, we notice that days are warm, almost hot but nights can be chilly. This is when a bit of humidity and coolness in the air can give sore throat, sneezing, coughing or slight fever.

Pitta ferments and shows signs of acidity, inflammation or strong body odour and some bitterness, impatience, frustration, anger in the mind. Vata gets cold and makes the joints more painful, digestion and bowel movements irregular and mind might be imbibed with anxious thoughts, worries or lack of concentration.

We can help ourselves with the following recommendations:

With the food

- Eat only when hungry and eat the appropriate amount (both hands joined together is the size of the stomach)
- Take a warm, cooked meal with any spices to improve the digestion (eg: ginger, turmeric, black pepper, cumin, coriander, cinnamon, ajwain, basil, garlic etc)
- Eat green leafy vegetables, take light dishes made of mung dal, vegetable soups... all pulses and dal are good when cooked with spices (all spices are good apart from red powder-chilli powder)
- -For non-vegetarian, eat white meat or small fishes.
- -Drink warm water all day long (especially when there's a sore throat)
- Dinner should be light and taken 2 hours before going to bed
- Give energy to the body with cereals and grains such as: amaranth, barley, cooked oats, granola, rice
- Honey is the best sweetener
- Ghee used for cooking and Sesame and Olive oils for dressings
- Chew some neem or Tulsi leaves

Some immunity enhancers:

- Giloy/Guduchi (*Tinospora cordifolia*), a very good immune regulator; 1tsp of powder morning and evening in warm water
- Amalaki (amla): full of vitamin C; consumed fresh if available or in powder
- Turmeric: Anti-inflammatory, can be used for gargling with warm water and a pinch of salt
- Tulsi (*Ocimum tenuiflorum/sactum*): for the lungs, fresh leaves in warm water
- Ashwagandha (*Whitania somnifera*): immune regulator and calming the nervous system; 1tsp morning and evening in milk or warm water
- Ginger – Turmeric – Black pepper powders (Be No1): improves digestion and energy, ½ tsp with warm water or lemon juice + honey once or twice a day
- Tulsi – Cinnamon – Amla – Ginger – Turmeric – Black pepper powders (Be No3): as prevention or in case of cold, cough, flu, feverish state, body ache, ½ tsp with a sip of warm water or lemon juice + honey once a day if it's preventive, 3 times a day before food if there are symptoms
- Saffron, aloe vera, licorice herbal infusions
- Chyavanprash Avaleha: 1 tsp in the morning with breakfast

In the activities, help Pitta and Vata to be centred and grounded:

- Be grounded in the heart or abdomen with Yoga, Pranayama, Meditation, observing the breathing movements in the abdomen, Yoga Nidra, Body Awareness, Qi-Gong, Tai Chi...
- Regular exercise, 30 minutes daily
- Gardening, cultivating, weeding, cooking
- Keep warm, take warm showers, cover your neck from chilled breeze
- Gargling with salty water if sore throat
- Oil pulling with 1 Tbsp of sesame or coconut oil, keep in the mouth for some time, spit it out and rinse the mouth with warm water (can be done early morning or at bedtime after brushing the teeth)
- Nasya: pour 2 drops of sesame oil or Anu Tailam in each nostril once a day
- Fragrances: sandalwood, rose, jasmine

Let's be all well, happy and healthy.

Yogic Kriyas - with Mamta Friday, 22 July, 9:30am – 12:00pm

Just as we clean our bodies daily, our inner organs need cleansing too. Internal purification through specific Yogic practices (Kriyas) helps our vital force (Prana) to flow. We will explore the origin and purpose of the Kriyas, learn & practice Trataka and Kapalbhathi Kriyas, and close with a guided meditation.

Yearnings for Peace: Peace Within, Peace Without - with Dr.Sehdev Saturday, 22 July - 2:00pm – 4:30pm

Harmony, Tranquility, Beauty & Generosity are essential expressions of Peace. Disharmony, tension, fear, and depression are various expressions of a life that is not at peace with itself. In this state of peacelessness, all our life energies are slowly dissipated. Peace Within - peace in our hearts, bodies, and minds, and Peace Without - in our families, nations, and in the world at large, are all of one piece. Through one's own life experiences and encounters, this workshop explores Peace as the most scintillating force in all its existential and spiritual manifestations.

Traditional Sanskrit Mantras with Sonia

Friday from 5 to 6pm (Regular Students)

In the recitation of Sanskrit Mantras the sound is very important and the specific pitches and strict rules of intonation and syllabic length should be learned according with the tradition of the great masters of the past, who figured out how to use the voice to calm the mind and attune the practitioner to the more subtle levels of the "sadhana" or spiritual path. Through the harmonic rhythm, repetition and participation in the singing, the mind reaches more clarity, concentration and tranquility.

How to find us:

We are thrilled to announce that we have received a generous donation of delicious snacks and treats for our dogs from a kind-hearted dog lover!

Join us on Sunday, **July 16th at 10:00 a.m.** for a special event called "Dog Treat Day." We have planned a big surprise for all of our 300 dogs and we invite you to be a part of it. Let's bring smiles to their faces and tasty snacks to their mouths!

Last week, we successfully assembled a few wheelchairs and started training our first paralyzed dogs on how to use them. It was an incredibly heartwarming experience for both the dogs and our team, witnessing the joy in their eyes and the happiness on their faces as they gained newfound freedom of movement. However, they still need practice and support to become more adept at using wheelchairs. Weather permitting, next Sunday, you can be a part of their journey and help them roll freely by supporting our dogs in their wheelchair training. See you Sunday at the shelter!

"SING STREET"

Directed by John CARNEY, Ireland, 2016

With: Ferdia Walsh-Peelo, Lucy Boynton, Maria Doyle Kennedy, Aidan Gillen

Synopsis: As everyone moves to pop music in early 1980s Dublin, sensitive teenager Conor struggles to cope with a strained family relationship, reconnect with his older brother Brendan, and most of all, deal with the hostile environment at his new public school. Then one day, he sees an enigmatically beautiful girl. In order to get noticed by her, Conor enlists the help of a group of dreamy teenagers to form a band, and amazingly, with each lyric he writes, the gap narrows; and with every song he plays, his heart overflows with love. Now, faced with a sea of opportunities, what does the future hold for a brave love like this... A refreshing comedy-musical, inspired by writer/director John Carney's (Once, Begin Again) life and love for music, "Sing Street shows us a world where music has the power to take us away from the turmoil of everyday life and transform us into something greater".

AUROFILM PRESENT A

“CINE-MASTER CLASS” on Sunday 16 July 2023 - 5.00–7.30 pm

at Aurofilm, Kalabhoomi (next to CRIPA)

If you like to discuss, share and learn more about films and Cinema, we invite you to our Cine-Master classes! Welcome to this chapter led by our special guest speaker **Pr. Sivakumar Mohanam** on: **“YEARNING”** (Midareru) by **Mikio Naruse** (Japan, 1964)

Our guest speaker: A Filmmaker and Film teacher (LV Prasad Film & TV Institute, and Loyola College, Chennai) Professor **Sivakumar Mohanam** will offer a presentation on **Mikio Naruse's** classic “Yearning”, which will be screened and followed by an open discussion.

Overview: Mikio Naruse is often overshadowed by more famous Japanese directors, even though his resume is brimful of classic films. Ozu was his assistant and Kurosawa was his best friend and contemporary. His films are on par with Japan’s leading directors in the post-war era.

Yearning is possibly Naruse’s finest moment. The main attraction is an eye-watering tale of a love triangle between a widow, her deceased husband, and his still-living brother. Beneath the surface, the story tackles issues like generational differences, postwar modernism, and the Japanese codex of honor.

The socio-political undercurrents in the narrative add depth, though it is hardly needed with such a timeless tale of forbidden love and undying devotion. Yearning is as gripping today as it was 60 years ago, much due to the well-aged and confident teamwork of Naruse and his signature actress Hideko Takamine.

Dear Residents,

150dpi has designed and developed a digital menu recently for an Auroville's Restaurant which can be read by their customers coming to dine in using a simple scan of the QR code from their mobile phone and be able to place their orders to the restaurant's staff.

Scan the QR code and experience the ease and convenience of ordering.

The digital menu also features a password protected administrator area through which you can add, edit, update your menu items along with marking items "not available" in real time and it reflects immediately on the customer menu side which is accessed by the diners.

Key advantages of this digital menu:

1. Adding items and removing them can be done instantly.
2. Price updates of items can be done with ease.
3. Mark an item "not available" for the day so the diners won't order it.
4. Update a particular day's special menu items.
5. You can share the digital menu QR code with anybody.
6. Payment can be done also through the same stand with payment QR code.

If you are running an eatery and feel this is something you would be looking for, please get in touch with us via email on hello@150dpi.com or call us on 08098144686.

We offer interested eateries a "one month free trial" of this digital menu. After which, it is a nominal yearly subscription fee that goes towards building and maintaining the software.
