PONDERING

[Someone trying to raise funds for Auroville requested detailed information about plans for development. When his letter was shown to Mother, she wrote]

All these questions prove that you expect Auroville to be a continuation of all that has been done up to now.

Auroville wants to be a new creation expressing a new consciousness in a new way and according to new methods.

HOUSE OF MOTHER'S AGENDA

One must be thoroughly convinced of it before one can expect to receive that Consciousness. You know what I would say? It's a good sign—it's not pleasant, but it's a good sign.

But, of course, at best—at the very best—we are transitional beings. And well, transitional beings.... But the consciousness of the inner being ultimately gets stronger, you follow? Stronger even than the consciousness of the material being. So the material being can be dissolved, but the inner consciousness remains stronger. It is of that consciousness that we can say, "This is me."

Yes.

There you are. THAT is the important thing.

The important thing.

As for me, the purpose of this body is now simply: the Command and the Will of the Lord, so I can do as much groundwork as possible. But it isn't the Goal at all. You see, we don't know, we don't have the slightest knowledge of what the supramental life is. Therefore we don't know if this (Mother pinches the skin of her hand) can change enough to adapt or not—and to tell the truth, I am not worried about it, it's not a problem that preoccupies me too much; the problem I am preoccupied with is building that supramental consciousness. So IT becomes the being. It's that consciousness which must become the being. That's what's important. As for the rest, we'll see (it's the same as worrying over a change of clothing). But it must truly be IT, you see. And in order to do that, all the consciousness contained in these cells must aggregate, form and organize itself into an independent conscious entity—the consciousness in the cells must aggregate and form into a conscious entity capable of being conscious of Matter as well as conscious of the Supramental. That's the thing. That's what is being done. How far will we be able to go? I don't know.

You understand?

Yes, Mother, I understand very well.

How far we'll go, I don't know. I feel that if I last up to my hundredth birthday, that is, another six years, much will be accomplished—much. Something significant and decisive will be accomplished. I am not saying that the body will be able to get transformed... I have no such signs, but the consciousness—the physical, material consciousness becoming... "supramentalized." That's it, that's the work now in progress. And that's what's important. You too, you must be able, you must be destined to do that also, hence your disgust. But instead of dwelling on the disgust, you should dwell on the identification with the consciousness you are in when you are sitting still. You follow? That's the important part.

That's the important part.

(Satprem rests his forehead on Mother's lap. Sujata approaches)

I am beginning to understand why Sri Aurobindo always said it was woman (Mother caresses Sujata's cheek with her finger) that could build a bridge between the two. I am beginning to understand. One day, I'll explain. I am beginning to understand. Sri Aurobindo used to say: it is woman that can build a bridge between the old world and the supramental world. Now I understand.

Yes, I understand too.

Then it's all right. We must have patience.

(Mother presses her index finger against Sujata's chest:)

Will you remember what I said?

The Mother, Agenda, April 26, 1972

<https://incarnateword.in/agenda/13/april-26-1972>

How are you?

I don't know, so-so.

Nothing particular?

No, Mother, nothing particular. And you?

(silence Mother sits gazing)

You are more conscious of what has to be demolished than of what is being built.

Yes, it's true—yes, I am very conscious of that.

Yes, of what must be demolished, but it's more interesting to be conscious of what's being built.

Yes, it's true—yes, I am very conscious of that.

Yes, of what must be demolished, but it's more interesting to be conscious of what's being built.

But, Mother, when at every step you're made to face all sorts of things that aren't very... that you want to get rid of.

But that's down there (*gesture to the ground*). You must look above.

(silence)

But is it getting built in spite of all the resistance?

Fortunately! Fortunately—because those who ought to be helping aren't helping. Thank God it's happening in spite of everything!

(silence)

It's like asking me whether the divine Consciousness is stronger than the obscure little consciousness of humans.

(Mother plunges in)

OBITUARY

CHRISTEL PASSES AWAY

This is to inform the community that our dear friend Christel left her body early morning on the 21st March. She would have been 56 years old on the 29th April.

For the past 30 years, in spite of her handicap, she kept coming to be among us in Auroville.

We will remember Christel as a dear courageous friend who made Auroville her second home.

This year, during her stay she was suffering from respiratory problems, which worsened on the return flight to France. Unfortunately, she could not reach home and she passed away in a hospital in Frankfurt where she had been admitted.

May Christel rest in peace in the arms of the Mother. Our thoughts go towards her brother and her nephew.

Lisa on behalf of her friends in Auroville

LORRAINE FREEMAN PASSES ON

SOS LETTER FROM AUROORCHARD

Dear Jayanti ji,

This morning, land board members along with SO(R) Ms. Meenakshi were at AuroOrchard to address the land encroachment by Mr. Sathish of the ex- Auro-Oceanic hotel.

To our surprise, the new marking suggested by the SO(R) is even more disastrous as it takes away half of our vegetable field. This vegetable field (around 0.5 acres) produces a minimum of **4 tonnes of vegetables every year**, all of which goes to the community of Auroville.

The new fence cuts right through it, destroying the work done over several decades on this land and soil.

Additionally, another 3.5 acres of land has been registered, which takes away the other half of this field and half of **another vegetable field (around 1 acre)**.

The total loss of vegetable production if this plan proceeds will be at least **10 tonnes per year**.

Needless to say, several lakhs of money have been invested in this part of the farm to develop intensive vegetable cultivation. The tireless labour of our workers over 40 years, several hundred volunteers and our collective aspiration of developing this area more and more - all stand to be lost due to this exchange which is done without any consultation with us in the first place.

This exchange also cuts off any access to the Ganesh temple from AuroOrchard. As you know, Mother had herself promised that the temple and its connection to this land would be maintained.

In November 2023, we proposed the parts of the land that can be exchanged and also offered to work together to find the best outcome.

Since then, we have always been told that we will be consulted for future exchanges but suddenly now we get to know that the exchange has happened and the land is already registered.

How does all this make sense in the context of wanting to help farms to increase production? AuroOrchard supplies over 60% of all fruits and vegetables produced by all Auroville farms. And we are going to lose a major portion of this due to a lack of communication from the Land Board and the SO(R).

If these exchanges go through in the manner already decided, AuroOrchard may cease functioning due to the huge loss of cultivated land, crops, investments and motivation for the entire team.

This loss can be avoided if we sit together and consider the alternatives. We have always been open to this discussion and I hope that we can prioritise what Auroville needs more than what the private developers are asking for.

I pray that you look at this issue from all perspectives and see the long-term impact of the losses AuroOrchard is going through on the spirit of this land and the people who have given their lives to develop it in the direction and with the promise made by the Mother- to grow food for Auroville.

We are reaching out to you for your help at this crucial time.

In service,

Anshul

on behalf of the AuroOrchard team

MONTHLY TRANSPARENCY REPORT MARCH 2024

As part of our commitment to transparency, we are happy to present our report for March.

Overview

New admissions: 18 (200 since April 2023)

Rabies suspect cases: 0

Adoptions and Releases: 25

Vaccinations administered: 225, all dogs boosted on Canine Care Camp

ABC shelter dog sterilisation: 25

Deworming: 260 doses for all of our dogs at Canine Care Camp

Donations and Grants Awarded

This month we received Rs. 63,412 in monetary contributions which includes Rs. 50,000 funds from BCC. We are very happy to announce that AVI USA has awarded us this month a grant of USD 608 to support the running costs of the shelter. The Department of Animal Husbandry has recognized the Auroville Dog Shelter as a charitable organization for the welfare of animals and issued two grants of Rs. 8 lakh for the purchase of a new ambulance and Rs. 10 lakh for the infrastructure to build the new Auroville Dog Shelter.

Expenditures

Animal Food: This month we fed our dogs 1.6 tons of rice, 2 tons of chicken, and 700 eggs, supplemented with donated food items like vegetables and daal which cost us approx. 1.5 lakh.

As one chicken farmer is buying all the cheap rice at a high market rate, it has been a tough struggle to purchase the necessary quantity of rice.

The price of rice has shot up from Rs 15 per kg to Rs 35. If you have any rice to donate to our shelter, we would appreciate it very much. We are also out of pedigree food which we use to supplement food for weaker dogs as the big manufacturers prefer rather to destroy nearly expired food than sell it to shelters for a discounted price.

Staff Costs: Total staff costs for this month for our workers, paid animal care staff, 3 veterinarians, and volunteers was Rs. 1 lakh this month.

Medical Costs: Using the grant money of the Animal Welfare Board of India we purchased microchipping equipment for 260 dogs for Rs. 38,350, 300 vaccinations for Rs. 80,325, and deworming for all our dogs in the value of Rs 9,677. Thanks to the awarded grant money we have upgraded our surgery with the purchase of surgical lights, an autoclave, sterilization sets, heating blankets, and endoscopes for the value of Rs. 21,300. Our Milaap fundraiser to sterilize 100 dogs in 100 days generated so far Rs 85,550 (29%) of the Rs. 3 lakh goal. Our costs for sterilizing 25 dogs this month had been Rs. 62,500

Auroville Canine Care Camp

On March 26th and 27th, the first Auroville Canine Care Camp took place under the honorable presence of the Dean of Mettupalayam (RIVER) College, Dr. V. Sejian who brought 15 veterinary students to support our team and volunteers to microchip, vaccinate, register and deworm all of our dogs. Every dog received a new collar with their name and registration number on it. We have worked hard on our new website and taken great portrait pictures of all our beloved residents. The launch of the website will be on April 15th, when we celebrate our 1st anniversary. We are excited to announce that the Canine Care Camp event started the Auroville Dog Shelters collaboration with RIVER College which will serve as a hands-on training place for veterinary interns to gather experience under the guidance of our 3 vets.

Surgeries and Vet Consultations

Since the beginning of February, Dr. Anandi and her team started regular sterilizations every Monday. We can sterilize a maximum of 7 dogs per day but intend to increase our surgery numbers from April onwards by adding an additional day for operations.

Despite our extremely tight budget we are committed to providing free or donation-based sterilizations for adopted former shelter dogs. We have started to provide free sterilizations for all the dogs of puppy camp. For other dogs, we ask for a donation of Rs. 3,000 per dog (Aurovilians Rs. 2,500). Despite trying to raise money for sterilizations through a Milaap Fundraiser, we still lack funds to sterilize more dogs. Unfortunately, we also had a bad experience as an Aurovillian (D.-K.) who had agreed to surgery for a dog she submitted, did not value the contract, and wanted to dump the dog after a successful operation in the shelter without payment. After insulting us, she also filed a complaint against us with town hall. We want to remind everyone that we do our utmost to sterilize as many dogs as possible by offering cost price which is a third of the price other vets are asking and we strive to do all we can to provide free surgeries for anyone who cannot afford it.

Inauguration of the new Auroville Dog Shelter

On March 26th at 8.00 am the inauguration of the Auroville Dog Shelter took place at the new site adjacent to the Red Earth Riding School. A local priest, representatives from several Animal Welfare Organisations, Auroville officials, and lots of dog lovers and supporters of the Auroville Dog Shelter attended the ceremony. A golden pillar with a picture of Mother was set up and her presence felt in a silent meditation. We are excited that finally after many months of preparations, hard struggle, and many attacks from several sides to prevent the building of a new shelter, the new Auroville Dog Shelter will be realized. We thank a lot of people for their hard work to manifest an important part of Auroville.

We thank everyone for your continued support of the Auroville Dog Shelter! We are moving forward towards a bright future for our canine friends and everyone who loves animals.

AUROVILLE YOUTH WORK SURVEY 2023 - PART 2C

Version: 2024-03-12 Done by: YouthLink

Introduction

This is part 2c of a survey conducted by YouthLink on the financial situation of youth in Auroville. Part 1 was published last year in News&Notes 971 and 972, part 2a and 2b were published in last weeks. The survey results will be published in News&Notes in 4 chapters:

2a - An Auroville youth perspective on education

2b - The work situation of Auroville youth in 2023

2c - The financial situation of Auroville youth

2d - A working youth perspective on Auroville itself

Part 2 is based on detailed in person interviews with 51 young Aurovilians between the ages of 18-30 in the second half of 2023. We consider this study representative of young Aurovilians aged 18-30, only the very young Indian females in the age bracket 18-21 are underrepresented.

The financial situation of Auroville youth

We asked the Auroville Youth about their financial situation in 2023. This data includes 36 individuals working both inside and outside Auroville. 33 respondents also shared information about their earnings on a given scale. From these 33, 15 (45%) are Indian and 18 (55%) are Non-Indian; 19 (58%) are male and 14 (42%) are female.

Most respondents (11) answered that they earn about 20 000 INR per month. Nearly as many report that they earn 30 000 INR or more.

On the other hand, 5 earn less than 10 000 INR.

The big differences result also from the fact that some respondents work outside Auroville and some work only half time.

What are the differences in income?

To get an idea what may cause the differences, we calculated averages by considering all “<10 000” as 8000 INR and “>30 000” as 31 000 INR. These are not exact averages but they give a tendency.

The 24 respondents that work in Auroville have an average income of 19 200 INR per month, 6 of them work half time.

The 9 respondents that work outside Auroville have an average income of 27 900 INR per month, 2 of them work half time.

If calculated this way, the difference is 49% more for working out of Auroville. But the real average will be much higher, since we asked only for “30 000 INR or more”. Our scale does not work in Europe or USA for example, since the earnings may well be 3 to 5 times higher, but the purchasing power of money is also more than 3 times less than in India.

In addition, 30 respondents also answered another question regarding how much they would earn outside of Auroville but within the Indian context. 17 said they would earn a lot more, 11 said they would earn more, only 2 said they would earn less.

To take these incompatibilities into account, the following figures will exclude all respondents that work outside Auroville, to make the averages more comparable.

What are the differences in income if working inside Auroville?

6 respondents in Auroville work 25 hours per week or less with an average monthly income of 13 500 INR. Average work hours per week is 16.8 hours.

The 17 full time workers in Auroville work an average of 43.3 hours per week and have an average income of 21 900 INR.

The difference in work time is 158% more for working full time, the monthly income is 62% more for full time.

The 18 respondents that hold team member roles in Auroville have an average monthly income of 18 400 INR and work 32 hours per week on average.

From the 11 respondents who work in an executive role, 7 work in Auroville and 6 answered the question about their income.

They earn an average of 21 700 INR per month, but they also work an average of 53 hours per week. The difference is 18% more income for executives but also 67% more work hours.

The 17 male respondents working in Auroville earned an average of 20 400 INR per month and work an average of 40.4 hours per week.

The 7 female respondents working in Auroville earned an average of 16 400 INR per month and work an average of 27.3 hours per week.

In Auroville, the female respondents earn 20% less than the male, but they also work 32% hours less.

The 11 Non-Indian respondents earned an average of 15 700 INR per month in Auroville and worked an average of 29.7 hours per week.

The 13 Indian respondents earned an average of 22 150 INR per month in Auroville and worked an average of 41.5 hours per week.

The difference is 41% more income for Indians and they also work 40% more hours.

The 9 respondents that work in a commercial unit or are self employed inside Auroville and answered the question on income earned an average of 19 300 INR per month and worked on average 38 hours per week.

The 15 respondents that work in an Auroville service unit earned an average of 19 100 INR per month and worked on average 35,5 hours per week.

The income is about the same for both groups, the respondents working in AV service units work 2.5 hours (7%) less per week.

Is their working income sufficient for everyday life?

19 participants (53%) reported that their current income meets their daily needs. On the contrary, 17 respondents (47%) indicated that their income falls short of covering their expenses. Nationality or gender has no big influence on these answers. About half of the respondents are male and female in both groups and likewise about half of both groups are Non-Indian the other half Indian.

From the 10 young Aurovilians working outside Auroville only 1 said that his income is not sufficient for everyday life.

From the 26 respondents working inside Auroville, 10 (38%) answered that they earn enough for their everyday life. They have an average income of 22 000 INR and work on average 35 hours per week. The 16 respondents (62%) in Auroville saying that they earn not enough for their everyday life had an average monthly income of 17 700 INR and work on average 38 hours per week. There was not really a threshold: two respondents were able to adapt their lifestyle to a monthly income of about 15 000 INR or even 10 000 INR.

What are important wishes/things that they cannot afford with their current income?

Since many respondents named multiple things that they can't afford, this data has 66 answers from 34 respondents.

Needs/wishes the working youth cannot afford

The largest unfulfilled wishes concern money for traveling (15 out of 34, 44%) or improve their housing situation (38%). Many respondents expressed challenges in meeting fundamental needs such as visiting their family (26%), raising a family (9%). Or they cannot afford pursuing higher education (9%) or invest in their own business (12%).

If their working income is not sufficient, how do they fill the gap?

In instances where their financial requirements exceed their income, participants resort to:

- (17) seeking support from partners, family, friends
- (8) engage in outside work (seasonal, abroad, online or freelance)
- (7) rely on savings they can use
- (2) adjust their lifestyles
- (2) utilize credit lines

Contact us

A big thank you to all our respondents for the time they took to carefully answer our questions and the trust they showed in us. We hope this study will give a clearer picture of the working youth of Auroville.

If you have any feedback, specific questions or would like to discuss the findings from this survey, please reach out to us at our email: youthlink@auroville.org.in.

VOICES AND NOTES

AUROVILLE: A SELF-SUPPORTING TOWNSHIP

Excerpts from a most famous and exhaustive conversation, reproduced in the Agenda and in the Ashram Centenary Edition:

"(Mother extracts from a heap of papers, letters and envelopes of all kinds, a note on Auroville, which was based on her words but written from memory.)

(Laughing) All this hangs together in a marvelous balance!

(Satprem reads out the note)

"Auroville will be a self-supporting township.

"All who live there will participate in its life and development.

"This participation may be passive or active.

"There will be no taxes as such but each will contribute to the collective welfare in work, kind or money.

"Sections like Industries which participate actively will contribute part of their income towards the development of the township. Or if

they produce something (like foodstuff) useful for the citizens, they will contribute in kind to the township which is responsible for the feeding of the citizens.

"No rules or laws are being framed. Things will get formulated as the underlying Truth of the township emerges and takes shape progressively. We do not anticipate."

Is that all?

I thought I had said more than that. Because inwardly I said a lot, a whole lot about the organization of food and so on... We are going to try things out. ...

And you don't pay for your food, but you must give work, or ingredients: for example, those who had fields would give the produce of their fields; those who had factories would give their products; or else your work in exchange for food.

That alone does away with much of the internal circulation of money.

And in every field things of that sort could be found... Ultimately, it must be a town for studies – studies and research on how to live both in a simplified way and in a way such that the higher qualities have MORE TIME to develop. There.

It's only a small beginning.

"Auroville will be a self-supporting township."

I want to insist on the fact that it will be an experiment: it's to make experiments – experiments, research, studies.

An experimental city?

Yes... Auroville will be a city that will attempt to be, or strive or want to be, self-supporting, that is...

Autonomous?

"Autonomous" would be understood as a sort of independence that breaks off relations with the outside, and that's not what I mean.

For instance, those who produce food, a factory such as "Aurofood" (naturally, when we are fifty thousand, it will be difficult to meet the needs, but for the moment we'll only be a few thousand at the most), well, a factory always produces far too much... So it will sell outside and receive money. And "Aurofood," for instance, wants to have a special relationship with workers, not at all the old system – something that would be an improvement on the Communist system, a more balanced organization than Sovietism or Communism, that is, which doesn't too much lean either toward one side or the other. ...

"Sections like Industries which participate actively will contribute part of their income towards the development of the township. Or if they produce something (like foodstuff) useful for the citizens, they will contribute in kind to the township which is responsible for the feeding of the citizens."

That's what we've said. The industries will participate actively, they will contribute. If they are industries producing articles that aren't in constant need – and are therefore in amounts or numbers too great for the township's own use, so that they will be sold outside – those industries must naturally participate through money. And I take the example of food: those who produce food will give the township what it needs (in proportion to what they produce, of course), and it is the township's responsibility to feed everyone. That means people won't have to buy their food with money, but they will have to earn it.

It's a kind of adaptation of the Communist system, but not in a spirit of leveling: according to everyone's capacity, his position (not a psychological or intellectual one), his INNER position.

In democracies and with the Communists, there's a leveling down: everyone is pulled down to the same level.

Yes, that's just the point.

The true part is that every human being has the material right... (but it's not a "right"...). The organization should be such, arranged in such a way, that everyone's material needs should be met, not according to notions of right and equality, but on the basis of the most elementary necessities; then, once that is established, everyone must be free to organize his life, not according to his monetary means, but according to his inner capacities. ...

At bottom, the problem almost boils down to this: to replace the mental government of intelligence with the government of a spiritualized consciousness.

It's an extremely interesting experience: how the same actions, the same work, the same observations, the same relationship with the people around (near or far), how they take place in the mind, through intelligence, and how they take place in the consciousness, through experience. And that's what this body is now learning – to replace the mental government of intelligence with the spiritual government of the consciousness. ...

THE MAHAMANU OF SATCHITANANDA

Once upon an instance before time and space, in the ever-flowing ever-undulating motion of Silence and Oneness, the ever-Conscious and Powerful ever-Blissful Beingness, Satchitananda, again stirs and utters the Supracosmic Word...

ॐ

From its bosom emerges this particular universe with its endless expanse of Space, Akash, the extension of Consciousness, from where starts to quiver Time, the movement of Consciousness.

And as Consciousness is inseparable from Beingness, Force and Bliss, from here to there joyfully zoom and dart speckles of colours, colliding, merging to form the first atoms of Air, Vayu. A single electron and a lone proton start dancing with each other, and Hydrogen forms and fills Space. Other elements with differing atomic configurations follow suit. In a flick of an instance appears Fire, Agni, igniting Vayu into balls of solar stars, brightly burning from its freedom-searching packets of energetic photons, as if they can really escape from the inherent Cosmic Union.

All these marvellous happenings are just a continuum of individualisation.

Tickled by the solar and electromagnetic heatwaves of Agni, the multi-faceted catalytic element of combustion and transformation, other gaseous elements form in the continuing expansion and contraction of this Universal Consciousness-Force. At one thoughtpoint an Oxygen atom starts flirting with two Hydrogens, and in their union drips and forms Water, Jala. Other atoms too excited by the hyperheat of Agni bind together and create massive stars with so much pressure that they tremble and contract within themselves, binding atoms to form ever-heavier elements and violently expand and explode! Kaboom! Some in a Supernova explosion! Kapow! Creating the ever heavier solid elements, Prithvi, that will eventually be fused together by gravity and electromagnetism, forming the asteroids, comets and planets, including a special one most suited as a divine field of evolution, a Bhumi, like this blue planet we call Earth.

Bhumi the future home and playing field of Manu, the archetypal man, swirls and dances with its moon, cools and forms with all the potentialities of Matter. Thus even before Manu comes, the Life-Force, Prana, Chi or Energy, descends and induces from the Five Elements the fluttering emergence of the most basic microbial, fungal, vegetal, animal and countless sorts of complex life forms, ever-searching for love and re-union, and in this process of ecstatic convergence consumes other elemental forms. And so is revealed, Energy is Matter. Energy is neither created nor destroyed, it just changes form. As the ancients say, the eater is also eaten, this the first movements of Divine Love reuniting with Its lost selves. I eat you and we are one.

“Dear All,
Nature is the source and resource of humanity.

It seems that humanity has shifted from being cradled by Nature to a kind of triumphant dominating attitude towards Nature that disdains the consequences of over-exploitation and destruction.

What is offered to you today is a glimpse of the natural, wonderful and very rich Beauty which is quickly disappearing day by day.

Some images are from Auroville itself and some are from the Tamil Nadu bioregion.

Soon displayed on Pitanga's walls, it is my pleasure to invite you to dive into the atmosphere these images provide and feel the relationship between you and what you perceive.

Please enjoy it.”

TIME TO SUMMERNATE

AYURVEDA HEALTHY TIPS

According to Ayurveda, the qualities of summer are hot, sharp, and penetrating. That's why our pitta dosha - the subtle fire that controls metabolism and transformation - can cause us to overheat. The sun saps the energy from the body, from the plants and the earth, increasing the heat and dryness.

Pitta needs to be looked after to maintain a good energy, mental clarity, joyfulness, good digestion and blood circulation, a beautiful glow of the skin and a sound sleep.

When Pitta is out of balance it will give skin problems, hot flashes, exhaustion, indigestion or loose stool. Emotionally, excess Pitta manifests through irritation, short-temper, impatience, judgement/criticism, perfectionism...

Before Pitta reaches uncontrollable heights, remain cool, calm and pamper the liver:

With the food: As Agni (digestive fire) weakens, it is better to eat light, unctuous (slightly oily), cooling food such as salads and juices.

- Favorable taste: Bitter taste, Sweet taste (to take moderately in case of diabetes and high triglycerides). Salty taste should be taken reasonably
- Drink water stored in earthen pot
- Raw food/salads are taken at lunch mainly
- Proteins: mungdal, chickpeas, beans, sprouts, nuts and seeds, non-veg: white meat, fish, seashell, dairies for breakfast or lunch, eggs
- Cereals for energy: jasmine rice, barley, oats, millet (fermented ragi)
- Vegetables: pumpkin, bittergourd, bottlegourd, snakegourd, ashgourd, cucumber (taken separately), salads, green leafy vegetables, broccoli, cabbage, celery, carrots, drumstick (moringa), zucchini, plantain
- Fruits: amla, pomegranate, banana, ramphala, chiku, papaya, apple, grape, date, watermelon and melon (to be taken separately), coconut
- Beverages: buttermilk, sweet lassi, coconut water, mint, lemongrass, cardamom, chamomile, nannari (sarsaparilla), amla juice, watermelon juice, vegetable juice, cucumber milk (blend ½ cup of peeled cucumber in 1 cup of milk with a pinch of sugar), electrolyte (1tsp lemon juice + 1tsp of sugar + 1 pinch salt in a glass of water),
- Lipids: ghee, olive or sunflower or coconut oil
- Spices: cumin, coriander, black pepper, turmeric, fennel seeds, fresh aromatic herbs (dill, coriander, fennel, mint, parsley, saffron)

Avoid:

- Pungent and sour tastes (especially for people who are Pitta dominant)
- Pitta increasing items: chillies, fermented (apart from idli and dosai), deep-fried, sour buttermilk or curd, red meat, alcohol (strong liquor, red wine), coffee ...
- Drinking beverages coming from the fridge or freezer during meals
- Ice-cream at the end of a meal (best to be taken when the digestion is finished, around 4pm)

Routine to favour:

- Avoid direct sun contact specially between 11am and 4pm, and protect from the heat by keeping a humid towel/cap on the head
- A nap of half an hour after lunch is allowed
- Body massage with coconut oil – if there's no time every day to apply oil on the body, then massage ears, hands and feet + pour 4-5 drops of coconut oil on the fontanelle
- Bath with cool water and apply a paste of sandalwood on the face, heart and lower abdomen (these are the 3 main parts that should remain fresh to maintain the coolness in the whole body); foot bath in the evening with vetiver roots, rose water or hibiscus flowers
- Swimming, Aquagym, any water activities. Qi-Gong, Tai Chi, light running: max 30 minutes early morning or late evening; walks in green environment, forest
- Soft yoga, pranayama (Sheetali, Sheetakari, ida nadi inhalation-left nostril inhalation), meditation with Gayatri mantra
- Walk under the moonlight, full moon bath
- Wear loose and comfortable cotton or linen clothes (white, blue, green, gray colours)
- Cooling jewellery: sandalwood beads, jade, pearl, amethyst crystals, moonstone, silver, aquamarine
- To refresh the ambiance use lemon or orange peel, jasmine flowers, lavender, wet cloth hanging at the open window, vetiver curtains

Cooling plants for the summer:

- **Amalaki – Amla:** refrigerant and full of Vitamin C, rejuvenative fruit
- **Aloe vera:** rejuvenates blood and tissues
- **Aegle Marmelos – Bael fruit:** make juice from the pulp and decoction with leaves, it calms body and mind. It is slightly laxative, do not take during pregnancy

- **Coriander**: seeds for urinary infections, kidney weakness
- **Red Hibiscus**: leaves and flowers for shampoo and conditioner; flowers for herbal tea
- **Manduka parni – Centella asiatica** leaves: rejuvenative and tonic for brain and nerves
- **Pudina – Mint leaves**: herbal tea or dishes
- **Radha consciousness – Clitoria Ternatea** flowers: herbal tea or juice
- **Sarsaparilla – Nannari** syrup: soothing Pitta
- **Shataavari – Asparagus racemosus**: cooling, calming Pitta, very good for women to harmonize hormones
- **Vetiver** roots: for bathing
- **Yashtimadhu – Licorice**: to refresh the body and to calm irritation, inflammation or ulcer in the digestive tract

Wishing you a beautiful summer

Sanskrit Chants with Vishvanathanji

Learn Samskrit Chanting in the light of Mother and Sri Aurobindo.

We will learn 8 traditional Samskrit Chants, invocations to the Divine Mother, to deepen our aspiration, widen our receptivity, and to bring down in us samata, peace, courage, humility, sincerity, harmony, gratitude, and perseverance.

The sessions will be led by Vishwanathan, supported by his wife Lalitha. Their study of the writings of Mother and Sri Aurobindo has deepened and enlarged their understanding of the traditional Samskrit chants and in turn the chants are a great help in their sadhana. They feel blessed to share these traditional Samskrit chants.

So, every Monday from 5 to 6 pm all are welcome to join to learn these inspiring Chants!

WRITING FROM WITHIN

Writing from Within is a session to learn how to use the writing as a tool to get to know oneself, one's different sub-personalities, the unconscious strategies by which we sabotage ourselves but also the natural resources we have inside to overcome obstacles and evolve.

Moreover, many other creative writing exercises can also be practiced during the session, such as experimenting with sounds and rhythms of the words, rediscovering the innate talent of storytelling, reactivating lost creativity, exercising the inner muscle of imagination through memory, and much more. The sessions will take place at the European House.

Duration of the session: 1h30min.

We will seek to tune into our own self-healing ability by doing nothing, consciously stepping back and listening more deeply to our bodies.

Sri Aurobindo: ‘It is by the thought that we dissipate ourselves... It is by gathering back of the thought into itself that we must draw back into the real’.”

This is a drop-in class.

Woga 1 & 2 with Dariya

Sunday 7 - Monday 8 April 2024 (9:00am - 6:00pm: 12 hours)

Woga is the union of two words: water and yoga and based on classic yoga poses and stretches, modified for standing in pool water, which is waist-to-chest high. Sessions are structured like their yoga equivalents on land: breathing, warm-up exercises, a series of poses, and a relaxation period. The difference is that you are in a warm water pool!

Focus of Woga 1&2 is Hatha Yoga in water (asanas in standing position, on the wall, in floating position), pranayama and meditation. Thanks to decrease in gravity, water allows greater ease of movement, unblocks articulations, lengthens and melts muscles, and removes negative tensions, thereby preventing stress, insomnia and anxiety.

No previous experience required (also no need to know how to swim)!

**Woga Instructors Training Course with Petra & Pooja
Tuesday 9 - Sunday 14 April 2024 (8.45am - 6.30pm: 42 hours)**

In this 6-day course, you will acquire the basics of Woga, be able to use the potential of yoga in shallow water, learn a Woga exercise repertoire, and receive didactic and methodical material to offer Woga courses and/or incorporate Woga into your water fitness classes.

Topics addressed are Yoga philosophy in general, background of Hatha Yoga and Pranayama, practical and theoretical knowledge of the physical laws of water, which serves as the basis for a good general body feeling/image, and methodology and didactics for planning lessons in teaching Woga.

Prerequisites: Woga 1&2 AND a certified activity as instructor in aquatic sports or as bodyworker instructor, or long time bodyworker in any kind of activity.

**Watsu® Yoga Round with Fred & Roberto
Monday 15 April 2024 (3:00 - 6:30pm)**

Watsu Yoga Round is a powerful tool for deep relaxation and inner peace. It focuses on listening to the body and presence; it represents a way to come back to your heart, to an inner silence that is fully alive and vibrant. It is an invitation to feel, awaken and celebrate the energy of your being.

When immersed in warm water during the Watsu Yoga Round, the body does not suffer from the effects of gravity; the flow of movements and stretching, alternated with moments of stillness, invite a progressive well-being: body and mind become free to dance!

No previous experience required (also no need to know how to swim)!

**Watsu® & OBA Basic with Dariya & Daniel
Tuesday 16 - Sunday 21 April 2024 (1:00 - 6:00pm: 31 hours)**

Watsu & OBA are aquatic bodywork modalities given in a warm water pool (ideally 35°C). Watsu, the part where the client's face stays always on the surface, introduces the qualities and body mechanics required to work with someone in water in order to create a profound state of both physical and mental relaxation. During the OBA part the receiver is also brought under water (with nose clip), which offers a unique experience.

In this course, you will practice basic techniques and qualities (grounding, presence, stillness, movement, attention) of being and moving another body in water. You will experience floating other people and being floated, on the surface and under water, thereby creating space for deep relaxation and nurturing body, mind and spirit. Participants in this course often appreciate the group space, which fosters deep, meaningful and nurturing connections.

Prerequisites: no previous experience required.

**Watsu® 1 TF (Transition Flow Yoga) with Petra
Monday 22 - Thursday 25 April 2024 (8.45am - 6.30pm: 34 hours)**

A 4-day course on the surface only. Watsu 1 (Transition Flow) teaches to connect the basic movements and positions you have learned in Watsu Basic with long, gracefully flowing transitions and to adapt this work to people of different sizes, shapes, and dispositions. You will also learn about your own body mechanics and how to support and move each person as effortlessly as possible.

On land, you will be introduced to both Co-Centering and Tantsu, and explore what being held means to you and others.

Prerequisites: Watsu Basic

Workers Leaving the Factory in Eleven Decades (2006)

Harun Farocki | Germany | 1995 | German | 36 mins

This film stems from the fact that the first camera in the history of cinema was pointed at a factory, but a century later it can be said that film is hardly drawn to the factory and is even repelled by it. Films about work or workers have not become one of the main genres. Most narrative films take place in that part of life where work has been left behind.

Sun, 31 March 2024 (15:00 IST)

Berlin: Symphony of a Great City

Walter Ruttmann | German | 1927 | 65 mins

The film is an example of the 'city symphony' film genre. It portrays the life of a city, mainly through visual impressions in a semi-documentary style, without the narrative content of more mainstream films, though the sequencing of events can imply a kind of loose theme or impression of the city's daily life.

The Human Dutch

Bert Haanstra | Dutch | 1963 | 90 mins

In 1964, director Bert Haanstra set out to make a documentary about his native country of Holland. By focusing his camera on life's small moments -- a child going to school, a couple kissing in a park -- Haanstra reveals the deep emotional connections and community-minded manners that are singularly Dutch.

Reminder: Friday 29th March "SHADOWS OF FORGOTTEN ANCESTORS" by Sergei Parajanov, USSR, 1965

Directed by Sergei Parajanov, and Friday 1st April-at 8:00 pm "FRANCES HA"

Directed by Noah Baumbach, United States, 2012

With: Greta Gerwig, Mickey Sumner, Adam Driver

Synopsis: Frances, a woman in her late twenties in contemporary New York, struggles with her friends, her ambitions as a dancer, her finances... everything. She wants so much more than she has, but lives her life with unaccountable joy and lightness...

This independent, wry and sparkling romantic comedy from Noah Baumbach owes more than a tiny debt to French New Wave and Woody Allen's best. The director's partner, Greta Gerwig co-wrote the script and plays the main role, 10 years before she directed the huge box office hit "Barbie", which was also co-written by the couple.

SPECIAL SCREENING OF "THE VILLGEGE OF LOVERS"
SAT 30TH MARCH @4:30PM

★★★★ Special Screening ★★★★★
The Village of Lovers

Saturday, 30th March @ 4:30pm in Cinema Paradiso
(75 min, English, Rated R - brief nudity)

Born out of the "free love" utopian movements of the 1960's and 70's, Tamera, an ecovillage in southern Portugal, is one of the most radical social experiments in human futurism. Recognizing that social change has to go beyond reactions to the dominant system. Tamera realized that building trust - especially in the most intimate areas of human life - was the missing key to long-standing cultural and political change.

Now, over 40 years later, when humanity's long-term survival has become increasingly uncertain, Tamera provides a regenerative and compassionate model for society, rooted in our reconnection to life.

The documentary will be followed by a discussion facilitated by Daniel Greenberg, former President of the Global Ecovillage Network and Friend of Auroville.
