PONDERING

Consciousness is a state and a power.

Love is a force and an action.

The Divine has an equal love for all human beings, but the obscurity of consciousness of most men prevents them from perceiving this divine love.

Truth is wonderful. It is in our perception that it is distorted.

MAN'S RELATIONSHIP WITH THE DIVINE

page 7

Human beings are capable of withdrawing from the Divine - and they often do it; but for the Divine to withdraw from human beings, that is an impossibility.

The Divine may very well lean down towards you, but to understand Him rightly you must come up to Him.

RELATIONSHIP WITH THE DIVINE

All is relative except the Supreme. The Supreme alone is absolute; but as the Supreme is at the centre of each being, each being carries in himself his absolute.

Dignity of the Emotions

Not to allow one's emotions to contradict the inner Divinity. - The Mother

After all, it is very simple, we have only to become what we are in the depths of our being.

None can say to the Divine, "I have known Thee", and yet all carry Him in themselves, and in the silence of their soul can hear the echo of the Divine's voice.

As we progress and purify ourselves of our egoism, our friendship with the Divine becomes more and more clear and conscious.

Closeness to the Divine will always grow with the growth of consciousness, equanimity and love.

God cannot be taken by violence. It is only through love and harmony that you can reach God.

To give oneself to the Divine, to receive and be the Divine, to transmit and spread forth the Divine: these are the three simultaneous movements which constitute our total relation with the Divine.

THE DIVINE IS WITH YOU

Never forget that you are not alone. The Divine is with you helping and guiding you. He is the companion who never fails, the friend whose love comforts and strengthens. The more you feel lonely, the more you are ready to perceive His luminous Presence. Have faith and He will do everything for you.

IMPORTANT UPDATE ON PRINT EDITION

Dear Community,

Thank you for your continued support over these past three years. The RA News & Notes was born from a need to provide residents and their duly-appointed representatives a space to express themselves beyond arbitrary censorship. We are proud to have sustained this work and intend to continue as long as it remains necessary and meaningful.

However, we now face a challenge. Due to some constraints, **we may not be able to continue printing the RA News & Notes from January 2026 onwards.**

If you currently receive a print copy and are concerned about this possible discontinuation, please reach out to us at newsandnotes@auroville.services.

If you would like to support our work, we welcome you to contact us at the same address.

WORKING GROUPS NEWS

FROM THE WORKING COMMITTEE

REPORT OF PARLIAMENTARY STANDING COMMITTEE

Dear Community,

A report by a “Department-Related Parliamentary Standing Committee on Education, Women, Children, Youth and Sports” regarding a Review of Autonomous Bodies and Institutions under the Department of Higher Education in the Ministry of Education has been submitted to both houses of Parliament on the 8th of December and is now widely circulating. The Auroville Foundation, as an autonomous body created by an Act of Parliament, was part of the review process, and observations and recommendations are included in the [full report](#) (starting at page 36).

We have read the final report and we are glad to note that the Committee has made a thorough and balanced assessment of the reality of Auroville - past, present and future. We note with particular appreciation the recommendations made by the Committee, which we welcome as a way forward towards a

collaborative spirit and changing the authoritarian and destructive approach taken by the AVF administration over the last four years. The Report is advisory in nature but we hope that it will be considered by all who read it as a reasonable, positive and appropriate way forward, to which we are ready to extend our full support and collaboration.

Here's a brief summary of the 16 points in the "Recommendations" section (our emphasis in bold). The committee:

- Recognizes "the many achievements of Auroville since its inception and since the passage of the Auroville Foundation Act, 1988"
- Expresses appreciation for the contributions made by past Chairmen of the Foundation, Dr Karan Singh and Dr Kireet Joshi
- **Notes that "the Auroville Foundation Act (1988) is unique in that it governs a community, not just an institution."**
- Emphasizes that the Governing Board, the International Advisory Council and the Residents' Assembly must work together in close coordination and harmony
- States that, "The Governing Board should continue the practice of consultation and collaboration with the International Advisory Council and the Residents' Assembly before making any key decisions."
- Observes that the objectives of the Auroville Foundation and the ideals of human unity can only be pursued with such an environment of constructive engagement
- Emphasizes the distinctive nature of Auroville as a community
- **Notes that "Auroville is meant to have an autonomous character and that an empowered Resident Assembly is critical to the same since it is the only statutory body capable of representing the residents of Auroville."**
- States that the practice to assign additional charge to the Secretary should be avoided
- Welcomes the MoU with IIT Madras but noting that it would come at the expense of Annapurna Farm. Therefore it recommends that **Annapurna Farm should not be disturbed and alternative sites should be found**
- Expresses the view that **all land transfers in service of the Master Plan should be implemented in full transparency and consultation with all stakeholders, including the Residents' Assembly and the International Advisory Council**
- Recommends that **the Master Plan be implemented in close consultation with the Residents' Assembly and stakeholders in Auroville, with changes as may be required**
- Recommends that "any amendments to the Auroville Foundation Act 1988 and the Auroville Foundation Rules 1997 should be developed through a consensual process, with the unanimous support of all the three statutory bodies - the Governing Board, the International Advisory Council and the Resident's Assembly."
- Recognizes the achievement of Auroville in self sufficiency and recommending this spirit of self direction and "self-sustenance" to continue and the involvement of the Central Public Works Department and other bodies should be minimized
- **Notes that the international character of Auroville is not just a matter of pride, but is the very intent of Auroville**
- Emphasizes that **"the Auroville Foundation's role in the visa process must be speedy and independent of any considerations, and that the Foundation should continue to keep the five year visa as the norm for all residents."**

- Recommends consideration of an amendment to the Act in order to recognize Auroville as an Institution of National Importance
- Considers that the Term of the Secretary should be co-terminous with that of the Governing Board
- Feels that instead of an annual Grant from the Government of India, the Foundation should receive enough funding to sustain itself in future.

Some members of the Auroville community, including members of this Working Committee selected by the Residents' Assembly, had the opportunity to interact with the Chairman of the Parliamentary Standing Committee during his visit to Auroville and Annapurna Farm. We are grateful for his time and attention. We extend our gratitude to him and the entire Committee for the understanding they have shown regarding Auroville's complexity and its unique character and intention.

A SUMMARY OF EVENTS HAPPENING IN AUROVILLE TODAY (DEC 25)

AV TODAY CLOSING DUE TO GB MEDIA POLICY

AUROVILLE TODAY

Message to our readers

This is the last issue of Auroville Today.

While this issue was in the press, the editorial team learned that a new media policy for Auroville is about to be implemented. We do not feel we can continue to function under this policy, so regrettably, because we are very aware of our responsibility to you, our readers, we have decided to stop publication. This additional page features a few articles that we had planned to publish in our December issue. Now we offer them to you as a final goodbye and thanks for your support.

The Governing Board of the Auroville Foundation, in its 68th meeting held on 1 December 2024, had approved a new media policy. However the policy was only made public on 7 November 2025, one month after this Governing Board's term of office had ended.

On 10 November 2025, the Funds and Assets Management Committee (FAMC) appointed by the Governing Board called a meeting of all Aurovilians involved in media. We were informed that the FAMC plans to bring all Auroville media activities together under a single, large media department. The main aim is to unify how Auroville represents itself to the world and to foster a 'positive image'. To ensure compliance with this objective, all media material will require approval by an oversight group before it can be published.

On the face of it, this is not unreasonable. Clearly it is important that there is unity in how Auroville's purpose and ideals are presented to the world. The issue, however, concerns how to document the way in which a community of seekers is trying to realise these ideals. Auroville, as Mother emphasised more than once, is about experimentation, and experiments – particularly a unique spiritual experiment like this one which lacks any precedent – can be messy, chaotic, unpredictable.

If one adopts the communication strategy of the corporate world, the 'messiness' involved in designing a product must never be mentioned: the only image to be propagated is a positive one. But Auroville is not a product to be sold on the open market. It is a working experiment, an attempt to realise a new way of being.

At Auroville Today magazine, we have always felt it is important to document this process as honestly as possible, celebrating the successes but also reflecting on the failures. We have done this

not only because we feel that such a unique experiment needs honest documentation but, above all, because we have an abiding faith that Mother is continuing to guide this project and that every detail, every struggle, may have its importance in the larger scheme of Auroville's evolution, even if we do not immediately grasp its significance or, indeed, how apparent oppositions can be reconciled at a higher level of consciousness.

The new media policy will not allow us to do this, as the focus will have to be upon 'positive' news only, and we will have to conform to a particular narrative regarding what we publish about Auroville. In addition, we were informed that new executives may be appointed to hold office along with or to replace the existing executives, presumably to ensure compliance with the new media policy.

At the same time, while we have complied with all requested procedures, a substantial donation made to Auroville for Auroville Today has not been released to the magazine.

Given these developments, we have come to the difficult decision that this issue, which coincidentally is published on Auroville Today's 37th birthday, will be our last.

We are immensely grateful for the support we have received from you, our readers, over the past 37 years.

Please email avtoday@aurville.org in mentioning your bank details. We will try our utmost to pay all requested refunds.

Auroville's monthly news magazine 'Auroville Today,' which has been operating since 1988, has stopped operations immediately due to the recently released Auroville Foundation Media Policy. While the Policy was approved in the GB meeting of December 2024, it was only made available to Aurovilians in November 2025, in a slightly revised version. You can find the [original 2024 version here](#); the revised and [released version here](#); and a document detailing the differences between the two documents [here](#).

In their statement (see above), the editorial team notes that they were called into a meeting and told that all Auroville media is henceforth to function under one 'Media Hub' which seeks to "unify how Auroville represents itself to the world and to foster a 'positive image.'" The current editors of Auroville Today, who are widely respected for their long-lasting nuanced reporting on events in Auroville, stated that they cannot continue to function under the current policy as honestly reporting on the 'messiness' of Mother's experiment is part of their core values. They also note that a substantial donation earmarked for Auroville Today has not been released since some time, hampering their operations and interfering with their responsibilities towards their donors.

Please read their full statement, available [here](#), as it reflects the painful clash between the corporatisation of Auroville by the AVFO, with the experimental and dynamic approach of our collective experiment. Decades old, foundational and important community services are increasingly suppressed, extinguished, and forced underground by those who seek to recast Auroville as a government project that obeys AVFO diktats. The editors have made the final issue freely available. You can [find it here](#).

AVFO 'FAMC' member Chandresh shared a [statement](#) on Auronet about the closure of AV Today. At the same time as asserting that "Claims of censorship or persecution are unfounded" he also stated that "Alignment is essential to coherence. Auroville's media landscape must move toward a unified umbrella of communication. [...] Fragmented messaging harms Auroville's credibility and purpose".

The statement that "claims of censorship and persecution are unfounded" are not supported by the reality of the situation for residents, who have seen in the past four years the takeover of Auronet, of the aurville.org platform and of the News and Notes. Even some Facebook groups which had been functioning under the administration of residents have been forced to hand over admin rights to Sindhuja, who claimed she had a right to do so in her role of 'AVF Media Vetter'.

Although alternative, RA-controlled platforms have been put in place by residents, they have to operate in secrecy and without the funding given to the AVFO controlled media, and in many cases with their email IDs being blocked from sending to auroville.org.in addresses, meaning that many residents are digitally unreachable. Additionally, many residents have been personally targeted for expressing views that differ from the AVFO's official discourse. Arun Ambathy, whose story is featured below, is one such example.

‘Auroville Uncensored’: A new video channel reporting on Auroville's situation has come up on Youtube. Three videos have been released so far - detailing the overall issues in Auroville, the plan to handover Annapurna Farm to IIT Madras, and the latest video is regarding AVFO media censorship. You can find [the channel here](#).

AUROVILIAN DEEMED ‘PERSONA NON GRATA’ BY AVFO

A [letter](#) that terminates the Aurovilian status of Major Arun Ambathy (retired from the Indian Army) was released on 28th October 2025. The letter, signed by the Secretary of the Auroville Foundation, declares him a ‘persona non grata’ in Auroville. It appears that Arun is the first person to have his status revoked by the AVFO under the newly implemented [Residence Criteria Standing Order 2024](#). While Arun was confirmed as an Aurovilian by the RA Entry Board in April 2025, this process is not recognized by the AVFO, and their letter refers to Arun as a Newcomer whose status has been revoked.

AVFO ‘WCom’ shared a [massbulletin](#) which stated that “This decision has been made in view of repeated conduct deemed inconsistent with the ideals, values, and Residence Criteria of Auroville.” The massbulletin further instructed that “Mr. Arun Ambathy is not permitted to enter or reside within Auroville premises, and no resident, service, or unit shall engage, employ, or otherwise entertain him in any capacity henceforth”, further instructing “all security personnel ... to ensure strict compliance with this directive.” This represents an unprecedented turning point in the use of coercion and force in the AVFO's management of Auroville in recent years.

Since he came to Auroville in 2018, Arun has been involved in reafforestation at Revelation forest. He has also been an outspoken supporter of Auroville's Residents' Assembly and has repeatedly questioned the legality of the AVFO's actions over the past few years.

He has personally confronted AVFO ‘ATDC’ members about multiple unauthorised works under the guise of "Government Work," including illegal soil mining, illegal inter-state soil transportation, and the cutting of roadside trees, which was done without the necessary permission from the Highway Department (see below for more information), as well as the cutting of protected species like Palmyra trees, Red Sanders, and Teak trees without permission. Arun stepped in when there was unauthorised tree cutting on village common land (poromboke), soil excavation on poromboke land, and a change made to the course of water streams - to the detriment of surrounding villages. Thanks to his proactive work in speaking out against illegal acts by the AVFO, 3 FIRs against these unauthorised works have been filed at the Auroville Police Station, which have led to strong strictures from the Collector's office.

Arun also supported the many workers who were employed for years in Auroville's forests to claim the gratuity owed to them by Auroville, after their employment was illegally terminated with no notice and no compensation, when the AVFO 'FAMC' fired all of the forest caretakers en masse.

A petition has been launched by residents against the AVFO's decision to terminate Arun Ambathy's status and declare him a 'persona non grata'. You can [sign it here](#).

COUNCIL ROOM SEIZED AFTER 3+ YEAR VIGIL

For almost 3.5 years, the AV Council meeting room in Town Hall has been kept safe for the use of the RA and its Working Groups by a dedicated group of vigil keepers who have coordinated to hold a continuous 24/7 presence inside the space. The first attempt to take over the room came on 1st July 2022. Since then, there have been periodic efforts to claim the room by AVFO-aligned Aurovilians, including one particularly [violent incident](#) in August 2022.

Watch the video of the council takeover [here](#).

On 14th November 2025, the lone Aurovilian who was holding the room for the community was asked by AVFO 'WCom' member Selveraj to leave the room to discuss an unrelated matter with him. The Aurovilian tried to get him to come inside the room instead, but he wouldn't, so she left the room to speak to him. She was then ambushed by a group of around 10 people, who then entered the room and claimed the space. The AVFO 'WCom', in an unsigned Auronet post, [claimed](#) that the repossession of the space was 'peaceful'.

The AVFO 'WCom' also erroneously stated that AV Council is "a group which has not been formally recognised under the current governance framework of the Auroville Foundation." This claim was strongly refuted by both the AV Council in their [massbulletin](#), and the RA WCom in [their communication](#). WCom stated that "The Auroville Council was created at the insistence of then Chairman of the Auroville Foundation, Shree Kireet Joshi, and is a committee formally constituted under Section 19 of the Auroville Foundation Act ... This statement shows shocking ignorance of the basic tenets of the Governance of the Auroville Foundation by people who persist in claiming to be the 'Working Committee of the Residents' Assembly.'"

ANNAPURNA FARM UPDATE

Annapurna Farm representatives met, for the second time, with the AVFO 'FAMC' and other Governing Board (GB) appointed group members, on the 21st October 2025. Key points from the meeting include:

- Annapurna is expected to shift in a timeframe of approximately 6 months.
- There is no area of Auroville farmland available for them to shift to, that meets Annapurna's basic farm relocation requirement - namely, 50 acres of contiguous land.
- In the meeting notes of Chandresh (AVFO 'FAMC') it is mentioned that events will unfold "as soon as the lease is signed," however the meeting summary created by Annapurna Farm representatives note that near the end of the meeting it was asserted that a lease has been signed with IIT Madras for the Annapurna land and that "...we [AVFO 'FAMC'] are handing it over today".
- The Annapurna team have now themselves taken on the work of trying to identify suitable land, as the Farm Service, assigned the task to assist, did not come up with any viable suggestions.

Please find the meeting notes of the Annapurna Farm team [here](#), and those of the AVFO 'FAMC' [here](#), for comparison.

Annapurna Farm is Auroville's most productive farmland, producing around 30% of all of the food that is produced in Auroville. If the plan to lease this land to IIT Madras goes ahead, the community will significantly fall short of its goal to have food sovereignty and sustainable agricultural practices within Auroville.

The change.org petition is still open; please [sign here](#) if you have not already done so.

AFSANAH'S GH UPDATE

Large scale tree clearing has taken place in and around Afsanah's Guest House for the completion of a second Vérité radial. Buildings inside the guest house area have also been demolished. Although the guest house currently remains open, some guests who had long standing reservations have reported that their stays were cancelled without warning. It was also [announced](#) that Aurovilians may no longer use the swimming pool, citing an unnamed 'security issue'.

As shown in the picture below, this new piece of road is just a few meters away from, and runs parallel to, the old radial, which remains in good condition and continues to function effectively. The destruction of this community asset and the clearing of trees raises concerns around allocation of community time, resources, and funds. Instead of functioning roads, and an operational guest house, there are now cleared areas, demolished buildings, and a guest house of significantly reduced value to the community.

An [article](#) on the Hindi-language news site amarujala.com (see [here](#) for the English translation) made a number of unsubstantiated claims about ‘financial irregularities’, including; *“An investigation revealed that the guest house had been the victim of serious mismanagement for several years. The audit revealed numerous financial irregularities, including unverified cash transactions, unaccounted income, and serious deficiencies indicating possible embezzlement of guest revenue”*.

These extremely serious allegations are not based on facts. The former AGH management team have been open and transparent about all the events surrounding the takeover, and have shared a complete [timeline](#), which includes a large number of emails from them to the AVFO ‘working groups’ regarding claims of financial mismanagement by the Guest House Trust. The article was later updated to include a response from RA WCom, who had written to the editors of amarujala.com to object to this framing of events.

Following the [statement](#) that was shared on Aurnet by the AVFO ‘FAMC’ after the forcible takeover of AGH, Auradha and Rosy sent a [massbulletin](#) to the community, which disputed several aspects of their statement, in particular the claims that the repossession was “peaceful” and that they were “unauthorized occupants” who “grossly mismanaged” the guest house.

‘CROWN TRAM’ PLANS IN THE MEDIA

Articles in The Hindu indicate a new agreement between the Auroville Foundation and Indian Railways to create a “low speed, electric commute facility” for Auroville. While this plan is not new - a piece of railroad was even laid down in Aurovelo many years ago as a test site - it now includes a ‘Toy Train’ to service the Kindergarten zone, as well as a ‘Crown Tram.’ Details on funding have not yet been clarified, and there are also open questions about how a tramway could be implemented in the near future, given that several privately owned plots still prevent completion of the Crown Road.

You can find the articles in The Hindu [here](#) and [here](#). A reel showcasing the proposed tram, made with Artificial Intelligence, was shared on Facebook by the account ‘Pondicherry City’ and can be found [here](#).

LEGAL UPDATE

Admission and Termination Regulations Case

The legal status of the Auroville Foundation (Admissions & Terminations of Persons in the Register of Residents) Regulations, 2023 remains contested. The RA WCom [reported](#) on 26th October that the case, which had concluded its debate in August, is being reconsidered after the main judge was transferred. Despite the 2023 Regulations having been challenged in court, no stay or interim order has been granted against them.

Working Committee Legitimacy

Multiple court cases concerning the legitimacy of the Working Committee remain pending in the Madras High Court. The RA WCom [has stated](#) that all three cases are still open, contrary to a recent [communication](#) from the AVFO 'legal coordinator' (Sindhuja) suggesting the matter has been definitively resolved. An October 2024 judgement in a 'quo warranto' case dismissed the petition on technical grounds but did not pronounce on which Working Committee holds legitimate authority. A Court Order from 4th September 2023 had stipulated that the Residents' Assembly may function under specified conditions, with certain limitations also applying to the Governing Board.

Land Exchange Court Cases

On 28th October 2025, the Madras High Court dismissed a Writ Appeal challenging the AVFO's land exchange transactions. The appeal, filed by an Auroville resident, had sought to halt land exchanges and cancel registrations dating from 2021. Please find the court order attached [here](#). The High Court upheld an earlier judgement from 4th March, which had found that the AVFO followed due process in conducting land exchanges. According to that ruling, the transactions were conducted in consultation with statutory bodies (i.e. they consulted the AVFO 'working groups', they were aligned with the Auroville Master Plan, and resulted in net gains for the Foundation. The court also determined that land exchanges do not require prior government sanction, as they differ from outright sales.

ROADSIDE TREES CUT

The AVFO 'Green Services' cut six trees, including two mature Kaya trees, which were providing shade to the roadside just outside Edayanchavadi, in order to make way for the expansion of the outer ring road (ORR). Although Auroville holds the patta of the roadside land, once you permit a state highway to be built on it, the road including buffer zones on both sides and trees on both sides become part of the highway infrastructure. Thus, any tree cutting on the roadsides needs clearance of the Highway Department.

It is important to note that this new piece of ORR has three connecting roads from the main highway, thereby increasing traffic into Auroville, which is against the original intent and design of the Masterplan.

Watch the video [here](#).

The cutting of the trees was initially halted by local people who were surprised by the action and demanded that the AVFO workers show the paperwork to prove that they had permission. The police were called and, as the workers were unable to prove that they had permission to cut the trees, their work was initially stopped. However, workers hired by the AVFO returned later to cut the remaining trees.

A police complaint has been filed by the Highway Department and has been taken up as a [CSR](#). The events were covered in the local news ([here](#) in Tamil and [here](#) for an English translation).

ERRATA RE DR KARAN SINGH

In the last report, an article was shared about Dr Karan Singh comments to AV Today, regarding a false and misleading article in The Hindu newspaper. Due to an editing mistake, the 94th edition was sent without including Dr Singh's correct title. The editors extend their apologies for this oversight.

MISCELLANEOUS

- Change.org Auroville petition concluded: A [petition](#) that was launched in December 2021 in the wake of the destruction of the Youth Centre and the attempts to destroy Darkali Forest has been concluded with a total of nearly 59,000 signatures. The final petition was submitted to the Hon'ble Prime Minister of India for his consideration.
- Auroville 'Alignment Program': The AVFO 'HRS' sent out an unsigned massbulletin which announced that "FAMC, HRS, ATR, and the Visitors Centre" were launching the "[Auroville Alignment Program](#)" which they claimed "is a collective effort to help each one of us ... live the ideals and purpose of Auroville in a more conscious, practical way". The program for Aurovilians is named '[consecration](#)'.
- AVFO CoC for pet owners: The AVFO 'Working Committee' sent out an unsigned massbulletin (apparently a 'draft') containing a '[code of conduct for pet owners](#)' which claimed to be in line with the Mother's guidelines for Auroville. The massbulletin was accompanied by a [selection of the Mother's quotes](#) regarding animals in Auroville, in which it was noted that she was against having a zoo in Auroville. The closest thing that Auroville has to a zoo is "Le Paradise D'Auro", an animal park located near Irumbai which was heavily supported by the AVFO 'WCom' member Arun.
- RRU Cyber Psychology course: The first offering from the "RASTA (RRU–Auroville Security Training Academy) initiative" is a '[Cyber Psychology](#)' course that was shared with the community by "Dr. S. Bascarane, Community Coordinator cum Cyber." Dr. S. Bascarane is a Superintendent of Police (SP) for Wireless/Cyber Crime in Puducherry. Cyber crime does not appear to be a pressing issue for the Auroville community so this appointment raises a number of questions regarding the use of community funds for outside consultants, particularly at a time that many Aurovilians are being denied access to community resources.

Auroville, in its foundational conception, stands for unity and respect for diversity, dedicated to collective harmony and progress. We cannot allow people to be silenced or excluded from this shared adventure.

If you have not yet signed the petition, please do so, and help spread the word among your family and friends who may resonate with our appeal.

Please find the petition link below:

Questions of Scope and a Website

SAIER was founded in 1984. In the last few years, we have revisited old documents and past work to ask: why was SAIER created? What is its scope? What could its role be in the context of Auroville today?

Perhaps the scope is in its name: Sri Aurobindo International Institute of Educational Research.

It begins with **Sri Aurobindo**, and his gift to the world, the force in action he represents in our current evolutionary crisis. And so the question: how do we remind ourselves of His work? Realign perhaps with a direction we may at times have shunned as too far off, so “let’s do this for now...”

International: if we look around ourselves, we may find we are missing some representation from nations where the young people of the world find themselves today – the Global South – full of enthusiasm and seeking and urgent need to find new paths... would it not be interesting to reach out in these directions, and see what bridges we might build?

Institute: it’s a word perhaps our Auroville society is a little weary of, since it’s very beginning... for life itself must find a way, and imposed structures tend to suffocate the flame. And yet, it’s here... this word. Part of our work and quest. What if we sought to find what institute could mean? An attempt to find an approach, even in today’s context, which shifts away from the hierarchical institutions we do not wish to recreate, into perhaps a more Subjective form of evolving networks? A something new, finding its way so as to simultaneously hold a sense of continuity and accountability and offer space for the New Consciousness to breathe, and to seep into our collectivities.

Education: an unending education and constant progress ... it’s been a 50-plus-year journey for Auroville education, often dancing between extremes of structure and freedom. As AI arrives, as numbers grow, as we question the education systems we have so carefully erected, is it time, finally, to zoom out of the context of schooling and imagine perhaps a gradual shift towards more flexible learning environments with the inner quest at the very centre?

Research: Auroville is a living laboratory, experimenting in all fields of human life and endeavour. Yet much of these experimentations remain unwritten. What could research mean in the context of Auroville? What could the research of tomorrow look like? Is it an exercise we are ready to undertake, to jot down and organise, the questions we seek to answer, the attempts, the falls, the learnings.

These are some of the questions which have been raised, some of the discussions we have been having. And in an effort to understand what works SAIER may take up, the first tiers of a website have been born—saiier.org. It is still under development, and hopes to offer soon a window into SAIER’s ongoing initiatives: research projects, educational resources, reflections on practice, and opportunities for collaboration.

SYSTEMS ENGINEERING GALAXY: ROGER ANGER’S LETTER RE THE FORD FOUNDATION

Some people pretend that the Mother never approved a master plan. To debunk the tale, I replied that a preliminary master plan was submitted to the Ford Foundation for partly financing

(\$ 430,000) a feasibility study for the Galaxy to be built in five years via systems engineering. This was the outcome of a one-week long conference, held in November 1968 in Roger's studio in Paris, with Mother's blessings.

In 1987 Suresh Indocha, the deus ex machina of the entire operation, gave me a copy of Mother's letter, along with the complete archival documentation of what transpired, and which no one in Auroville had seen so far. We kept the whole at the Centre for Human Unity/Laboratory of Evolution where I worked, and afterwards passed it to the Auroville Archive. I have a soft copy (PDF or jpeg) of the original massive folder.

I attached the following files, which on request I can forward to others as well:

- Mother's 15-page letter to the Ford Foundation, 13th March 1969. The jpegs files are also available.
- Roger Anger's letter to André Morisset (Mother's son) apropos the Mother contacting the Ford Foundation. Original French, and English translation.
- On behalf of the Government of India, in 1971 the United Nations requested Dr. Sidney Firstman, already approved by the Mother (Planning Research Corporation, Los Angeles – cooperating with NASA) to submit a feasibility study. PDF file attached.
- The preliminary master plan, of which I have an original copy, and its maps. The Foundation has abundantly photocopied it.

The complete story can be read at <https://overmanfoundation.org/the-systems-engineering-galaxy-of-auroville-as-approved-by-the-mother-by-paulette-hadnagy/>

I also have a recording of the speech that Suresh Hindocha gave at the Town Hall in 2009; also attended by Kailash Jhaveri, Mother's secretary to UNESCO. A lively interaction followed. Sauro, at that time in the planning section, had welcomed my request and the Auroville radio did the recording.

"The Systems Engineering Galaxy and Mother's guidelines" may be my fourteenth book, presenting the entire documentation. An Aurovilian has offered to sponsor it.

History cannot be subverted.

Sadly, Roger's letter to Mother's son on 25th January 1969 tells a lot:

My dear André,

I met with Mother this morning regarding the Ford Foundation. She had asked me to summarize its main points, which had remained pending until, I believe, its content, purpose, and consequences were clearly explained to her.

Mother gave her initial approval for it to be sent to Delhi as soon as possible, after making a few remarks and suggestions that we will, of course, strive to incorporate into the final document to be prepared for the final presentation to the Ford Foundation in New Delhi before February 8th.

With Mother's agreement, I requested that a copy of the document presented to her be sent to you so that you could provide your feedback and identify any points you find debatable. It is therefore urgent that you inform me of your opinion as soon as possible.

I found in Auroville a level of disarray rarely seen and a complete waste of goodwill, disorienting some and pushing others towards actions and initiatives detrimental to the project's success. Once the facts have been analyzed, I will speak to Mother. With her help, new organizational and coordination methods should, I hope, allow for greater efficiency and, at the very least, rectify a financial situation that appears to be, to say the least, confusing. The

interpersonal issues and the dynamics of the relationships among the Aurovillians must also be brought to Mother's attention. I sincerely regret that you are not here to help with the organization.

I will try to keep you informed. I hope the Auroville association is progressing and that you can keep a watchful eye on it. All is well. Everyone is in excellent health. My warmest regards.

Roger

PERHAPS SOONER

"One must have an absolutely transparent sincerity. Lack of sincerity is the cause of the difficulties we meet at present. Insincerity is in all men. There are perhaps a hundred men on earth who are totally sincere. *(This was 57 years ago in 1968... hopefully there are more now circa 2025)*

Man's very nature makes him insincere—it is very complicated, for he is constantly deceiving himself, hiding the truth from himself, making excuses for himself. Yoga is the way to become sincere in all parts of the being. *(Oopsies... no choice really. ["Only by an entire change"](#) beyond the human being is the solution)*

It is difficult to be sincere, but at least one can be mentally sincere; this is what can be demanded of Aurovilians. The force is there, present as never before; man's insincerity prevents it from descending, from being felt. The world lives in falsehood, all relations between men have until now been based on falsehood and deceit. Diplomatic relations between nations are based on falsehood. They claim to want peace, and meanwhile they are arming themselves. Only a transparent sincerity in man and among nations can usher in a transformed world.

CELEBRATING 30 YEARS OF STUDIO NAQSHBANDI IN AUROVILLE

MON 15TH - SAT 20TH DECEMBER

It's been 30 years since I started practicing in Auroville as a bright-eyed, idealistic young architect, ready to begin an adventure!

And what a great privilege it has been to build and design for and in Auroville. The journey has had its ups and downs - from the joy of seeing a building take shape to often facing challenges typical to Auroville's planning processes... but mostly it has been a humbling experience, one of learning to unlearn and getting to know oneself better.

I have been thinking how to share this moment with the larger community and have the idea to have an **OPEN HOUSE of 7 different projects** created by me, from **15-20 December 2025**.

This way you can have a glimpse into the world of architects and architecture - how a concept drawn as a sketch becomes a built creation and takes a life of its own; of all the different agencies that come into play to birth a building. Our gestation period from the first sketch to starting the construction is typically about 2-4 years if we are lucky !

Following are the buildings and their locations, days and timings. We have got special permissions to show everyone around and the users (in most cases), contractors of the building and our team at Studio Naqshbandi will be present to explain, answer and have some documentation ready for you.

THE POTENTIAL OF KINDNESS - BOOKLET LAUNCH AND SHARING OF RESEARCH FINDINGS

TUESDAY 16TH DECEMBER, CREATIVITY HALL OF LIGHT

Over the past year we have been exploring how kindness activities affect peoples' wellbeing, social connections, and self-compassion.

We sought to better understand how kindness varies across different cultures and what obstacles might prevent us from giving and receiving kindness. We were

also curious about the contagious nature of kindness - how it can create a ripple effect.

Our action research saw around 80 community members take part in activities including sharing of Kindness Stories, Film Screenings, Acts of Kindness, and Loving Kindness Meditation then share feedback on the impacts they noticed.

We are delighted to share the findings from the research and also launch the Kindness Booklet, which captures some of the personal stories we heard from Aurovilians about their experiences of kindness along with beautifully captured portraits.

We warmly invite you to join us in this final session of the project, to discuss the key research findings, explore the research outcomes together and celebrate the stories.

This event is open to everyone. We look forward to sharing this work on kindness with you.

SOLITUDE FARM CAFÉ – 20 YEARS OF LIVING FOOD CULTURE

FREE GUIDED FARM TOURS EVERY SATURDAY

For over 20 years, Solitude Farm Café has been a living example of local and traditional food systems in Auroville. Rooted in cultural and nutritional heritage, the café prepares food using a wide diversity of edible weeds, tubers, flowers, leaves, roots, stems, seeds and seasonal vegetables, all grown through natural, non-interventional farming practices.

The food is deeply nutritious and full of distinctive flavour, while also addressing the ecological cost of industrial agriculture—monocropping, long food miles and heavy carbon footprints—by growing and cooking what truly belongs to this land.

Solitude serves breakfast and lunch daily, offers a daily local food thali lunch as an alternative lunch venue, and offers a Lunch Scheme for Aurovillians not on city service maintenance. A small farm shop on site sells Ayurvedic powders, jams, pickles and fresh farm produce.

Free guided farm tours take place every Saturday at 11:30 am, sharing the narrative of natural farming and the reclaiming of cultural nutritional heritage.

We look forward to receiving more Aurovillians at the farm.

SUPPORT NEEDED

APPEAL TO SUPPORT THE MULTIMEDIA CENTRE AUDITORIUM - CINEMA PARADISO

Be Part of The Story: Support

Multimedia Center Auditorium – Cinema Paradiso (MMC-CP)

Community cinemas worldwide thrive on support from their audiences. At Cinema Paradiso, our core funding now covers only basic maintenance. We handle everything else ourselves, from fuel to upgrades. Since COVID, operational budgets dried up, costs rose, and fewer events mean less income. Generator expenses once covered outside the budget now fall on us.

To cover ongoing expenses, we set a goal of 8 Auroville units. Three units already contribute ₹3,000/month each, and we are grateful for their support. We now invite 5 more units to join them. Individuals and film lovers are also welcome to contribute as well. Every bit of support helps.

Indian nationals and unit holders in Auroville (from any nation) can donate by setting up recurring or one-time contributions via the Unity Fund at our Financial Service. This ensures your support goes straight to MMC – Cinema Paradiso (FS Account #105106). Direct payments to our FS Account are not considered donations and will incur 18% GST for us. However, if that works better for you, please go ahead. Non-Indian nationals (from within Auroville or elsewhere) are welcome to contribute by contacting AV Unity Fund at Financial Service for guidance.

Your contribution helps keep screenings alive and strengthens community spirit. Be part of the story.

Thanking you

WORKSHOPS

CO-CREATING THE DREAM WORKSHOP SERIES

SATURDAY 13TH

DECEMBER,

VÉRITÉ

A few Aurovilians have taken online ProSocial courses based on Nobel Laureate Elinor Ostrom's research, in which she identified eight core principles based on communities around the world that help them work successfully. These include clarifying shared purpose and values, fair decision-making, transparency, and constructive conflict resolution. The ProSocial training also included listening, communication and other internal skills. Seeing the relevance of these discoveries for Auroville, we are offering a series of flowing, engaging, and explorative workshops to bring awareness to these principles and practice useful skills for enhancing interpersonal relationships, working in units, and collective life.

Each workshop is a stand-alone experience.

The series continues on **Saturday 13th December from 9:15 - 12:15** in Verite with our sixth workshop:

"Integral Making"

Decision

How do we choose—within ourselves and together as a group? This experiential workshop invites curiosity about the ways we make decisions, exploring both our inner processes and collective methods such as voting, consensus, and consent. Through guided

activities and reflection, we'll observe how awareness and participation shape intelligent, harmonious choices. Together, we'll deepen our understanding of what it means to decide with integrity and wholeness.

PRESENTING: KOOKURAL

SATURDAY 13TH DECEMBER

Kookural is an experimental verbatim theatre piece built from survivor testimonies and legal records of the 2011 Keezsathamangalampet violence.

It exposes the gap between lived experience and institutional language, using silence, fragmentation and repetition to question how we listen — and what it means to witness.

Golconde Portrait

Dec. 11, 2003

The street dogs bark, the moon is full
And lorries belch their poisoned fumes,
The world is now a crucible
In which an unseen flower blooms.

Mystic, rising on its stem,
A lotus of divine surprise,
The supramental diadem
Of children born with sun-gaze eyes.

I live in Golconde near the sea
And walk its glowing black-stone floors,
An oasis of tranquillity
That leads to occult corridors

And trance-like caves of harmony.
The outside world intrudes not here
Though a vain and rude cacophony
Impinges on the outer ear.

In an unstained radiance of peace
With gratitude I come and go,
The soul content, the heart at ease,
While deep within the sacred rivers flow.

Narad

Cling to the vine,
Commune with the Divine.

Dive in,
Savour the soma—
The sacred wine.

Stay sober,
See if you still can.

MONSOON WITH AYURVEDA AND LOCAL PLANTS

During monsoon, the climate is cold and humid, rains and little sunlight increase drastically the moisture in the air and on the ground leading to a more acidic environment, sour taste prevails. The body struggles to keep warm and dry, the digestive power can also be less.

VATA gets cold and gives joint pain, **PITTA** keeps fermenting, **KAPHA** bloats and retains water.

An extra focus will be given to Vata imbalances, as it is the right season to reduce or expel Vata toxins (in body: stiffness, bloating, coldness, pain and inflammation in the joints; in the mind: anxiety, anguish, fear, dismay, confusion, doubts).

This is a period to slow down and care for AGNI – digestive fire

IN THE FOOD :

- All meals are warm, cooked in a sauce-pan, easy to digest, light, spicy
- **Proteins:** Mung dal, beans, chickpeas, lentils (all of these cooked with asafetida to prevent bloating), white meat, egg, peanut
- **Vegetables:** amaranth, green leaves, carrot, beetroot, cauliflower, bitter-snake-bottlegourd, moringa (drumstick), chow-chow, radish, pumpkin – all should be well washed to avoid contamination
- Sweet taste with old grains - barley, rice, millet, oat, wheat
- **Fruits:** apple, pomegranate, banana, papaya, grape, guava, pear

- **Spices:** ginger, pepper, long pepper (pippali), turmeric, cumin, clove, asafoetida, mustard seeds, ajwain, cinnamon, fennel seeds, fenugreek seeds, onion, garlic
- Ghee or sesame/olive/sunflower oil (cold pressed)
- **Drinks:** herbal teas, warm or boiled water, with honey or jaggery
- **Ayurvedic formulas to take after meals:** Panchakola, Trikatu, Hingwashtak churna... with honey.

AVOID :

- All food with yeast/baking powder, cheese, yogurt, curd, lassi, beer
- Drinking too much liquid during or straight after meals
- Uncooked vegetables and salads
- Heavy and difficult to digest (fried food, pizza at dinner, etc)
- Milk coffee, ice cream
- Carbonated soft drinks.

IN ACTIVITIES :

- Be regular in the daily routine, especially in taking meals and going to bed
- Time to keep Vata balanced with Abhyanga (oil massage + steam bath), Shirodhara (warm oil on forehead), Basti (warm oil enema)
- Foot bath with warm salty water
- Wash with warm water (shower or bath)
- Keep body warm: neck and feet especially
- Soft physical exercise: 30 minutes a day
- Yoga, Pranayama, Meditation-concentration, Qi-Gong...
- Fumigation with eucalyptus, neem, sage
- Nasya (oil drops in the nose) with Anu Tailam at bedtime or in the morning to clear the sinuses.

AVOID :

- Siestas and day naps
- Intense physical sport or work
- Moist and cold air, wind, fan
- Staying humid after being in the rain
- Long hours in front of the computer
- Skipping meals or fasting
- Staying awake late at night
- Too many travels.

Most of the above aggravate Vata.

HERBS AND MEDICINAL PLANTS FOR THE RAINY SEASON :

- Moringa – Moringa Oleifera: to balance Vata and Kapha by increasing the digestive power
- Bhunimba (Nilavembu) – Andrographis paniculate: in feverish condition
- Guduchi (Giloy) – Tinospora cordifolia: natural immunoregulator
- Haritaki – Terminalia chebula with a little of rock salt: to balance Vata and ease bowel movement
- Dashamoolarishtam – for joint pain and inflammation, to balance Vata.

Enjoy the rain and
stay warm and cosy!
